HD TV is great!

HD Radio sucks!

Got it?

Good!

Goodbye!

There are some tent cities near Los Angeles. www.ahrc.com

Step it up, move along, step it up, move along,,,,,

((Do you expect me to eat this stuff?)) [Look! I dont care what you do with it!]

Step it up, move along, step it up, move along,,,,,,,

- For the users of this group are you happy with the sound
- of your current radio's?

Scooter - Yes presently Except for 3 'local' Sonora, CA
Radio Stations : 1 AM and 2 FM

Note - I live beyond the Service Contours of everything
else that I can hear on a regular basis using the old
analog AM & FM Radio Technology. And for the most
part the Audio is very good.

The IBOC "HD" AM & FM Radio Signals don't make it this
far from the Transmitter sites in the California Central Valley.
So for me HD-Radio is : Hello I Can't Hear You !" experience.

- Would you replace your analog TV's before ditching radios?

Yes - BTDT ~ RHF

- I'd ditch TV's because there's a big improvement with HD TV..

That is Very True.

> Scooter...

=BUT= I think that IBOC HD-Radio is a 'done-deal' cause
both the Radio Broadcasting Industry {Corporate Media}
and the FCC {Big Government} : Want It To Happen -and-
Will Make It Happen. ~ RHF

-ps- Thank for putting HD Radio in the Subject-Line.

Murdoch and his political appointees for Faux News will make sure to contain criticism of the Communist regime in Beijing. How often do you actually hear Bill O'Reilly, Scam Hannity the Faux Catholic, and the other lip gloss gals of Faux News to tell the truth or something resembling the truth. It's amazing how despised Murdoch is in Australia. Even Hillary was in his pocket for a while. Seems that Murdoch donated some money to the Hillary campaign. 1604. US Steps Up Radio Broadcasts In Crisis-hit Tibet

How long before the Shrub and his daddy pressure the VOA and Radio Free Asia to cease broadcasting into Tibet? Certainly they do not want to offend their bosom buddies - the communist ruling elite in China. The Bush crime family goes way back with their friends in Red China. Something about opium I am told.

WASHINGTON (AFP) - The United States said Monday it would increase radio broadcasts to Tibet as China clamped down on media coverage of the bloody protests in the Himalayan territory.

"The violent crackdown by Chinese authorities in Tibet compels us to increase our broadcasts," said James Glassman, chairman of the Broadcasting Board of Governors.

The board is an independent federal agency which supervises all US government-supported, non-military international broadcasting, including the Voice of America (VOA) and Radio Free Asia (RFA).

At present RFA broadcasts eight hours daily to Tibet via shortwave radio. VOA broadcasts four hours daily, also via shortwave.

Each will expand radio programs by two additional hours daily, the broadcasting board said in a statement.

VOA also will double its weekly Tibetan-language television programming from one to two hours via the AsiaSat 3 satellite.

"Our audience clearly will benefit from these trustworthy sources of news and information, which differ sharply from Chinese government sanctioned broadcasts," Glassman said.

RFA's Tibetan service "is working around the clock to bring authoritative, breaking news to the Tibetan people," RFA President Libby Liu said.

"These additional hours will greatly enhance our capacity to deliver this news, including live updates, to people on the ground," she said.

At least 10 reporters from Hong Kong were expelled Monday from Tibet on the heels of China's worst crackdown in Tibet in years.

China is facing mounting global pressure amid exiles' claims that hundreds of people may have died in the crackdown even though Beijing denied using deadly force.

Foreign journalists in China have also demanded that the government allow access to report on the events in Tibet.

With Tibet's media tightly controlled, VOA and RFA are key sources of information in a society where word of mouth is the top way to share news, the broadcasting board said.

You are correct. The two party dictatorship make elections in this
country a complete sham. Read The Nation article entitled "Hillary
Inc." at http://www.thenation.com/doc/20070604/berman
It reveals Hillary's deep ties to corporations and discusses Murdoch's
large contributions to her campaign. She truly is a pathological liar.
What is really frightening is watching her facial expressions and body
language. She is failing the "eyeball test" more and more frequently
as her coronation becomes less certain.

Being wide eyed and alert is one thing, but when you can see the
white all around the eye that is crazed. And that she is, and that is
very scary. Check it out next time you watch her working the crowd.

The speaker in my pocket radio leaves alot to be desired.

I'd like to plug a larger speaker into the earphone jack.

As I remember it, though, audio impedance on these radios
is about 40 ohms.... an 8 ohm speaker wouldn't match up.

Been a very long time since I've seen a speaker in a pocket radio that used an odd impedence like that. The main issue is the power output of those little buggers is down around 30mW, so you need a pretty efficient speaker. Something like a 4" speaker out of an old table radio would work, but don't expect booming bass out of it. I had a speaker that came from a drive-in movie that did an upgrade when I was a kid, and plugged it into my Juliette pocket radio. It made a huge difference in sound quality. Of course, radio stations sound like warmed over crap now compared to what they did in the mid 60's...

1 - DPM,
Plus the ERA of "Commercial Free" Satellite Radio Is Over
when the Terrestrial AM/FM Radio Stations {Networks} can
put their 'Content' on DS Radio Systems.

A number of the present XM-Sirius Customers are 'there'
because for the most part it has been "Commercial Free".

With this proposal up to 50% of what is on a DS Radio
System could be Audio Programming Content that is
Laced with Commercials.

Say Bye-Bye to the Subscribers who were motovated
by the Commerical Free aspects of DS Radio.

2 - DPM,
Again IMHO It is not -if- It is only a matter of "When"
the FCC Mandates : "All Mode" {Digital} AM/FM/DS Radios
One Part - AM/FM "HD" Radio using IBCO
One Part - Direct Satellite (DS) Radio -or- an Optional
Play-and-Play DS Radio Interface Feature in every Radio.
Plus One Part - WiFi and/or BlueTooth for Direct
Internet "Connectivity"

THE ALL MODE & ALL DIGITAL RADIO STANDARD*
* Done In the Name of the Public Interest by the FCC
for a Digital Society ensuring that Everyone has Equal
Access to New Technology and Digital Audio Content.

How lame. Instead of getting the 1st Amendment to apply to radio they

XM and Sirius are becoming less relevant by the minute. They were nice
to have around for a while, and I still have Sirius in my 3 vehicles,
but there are much better choices for music and talk lovers at home and
at work.

We discussed this three years ago. Commercial content was inevitable.
As soon as Sat Radio achieved a ratable audience, commercial content was
assured. In less than a year after that conversation, commercials began
appearing on XM. If Sat Radio becomes a successful vehicle, they will
clamor to get on board. And with Karmazin at the helm, there would be no
way to prevent commercial content. His Holy Grail of broadcast is
subscription radio with commercial support. 'Never rely on one revenue
stream."

If CCU gets their way here, a very great deal about Sat Radio will change.

Top of the list, its subscriber base.

We've been discussing this also. If HD is to survive, it will need a mandate. And FCC is committed to all digital broadcasting since Michael Powell.

Peter Graves is/was (is he still kicking?) a good guy too.The first movie I ever went to see with Peter Graves in that movie, was The Thing movie, back in the early 1950s.I was only about nine something years old at the time.That space alien scared the crap out of me.So did, The Wizard of Oz (Wizard of Oz movie I saw back in the 1940s in Carthage,Mississippi, I think it was) and the War of the Worlds movies.

"Ibiquity Publishes Proposed Rule For Merger"

"This represents $100's of millions of dollars if the premium is only
$10 per chipset. How much is the premium in reality? $20? $30? This

information is needed to consider exactly what is being placed on the table by Ibiquity. Ibiquity is looking for such a concession so that they will no longer have to spend hundreds of millions of dollars, and negotiate with OEM partners. While seeing exactly what their proposal seeks is helpful, there are still more answers that are needed. Taking away hudreds of millions of dollars in synergies is not a viable answer at this point."

http://siriusbuzz.com/ibiquity-publishes-proposed-rule-for-merger.php

"Satellite Radio Facing Bankruptcy?"

"Satellite radio companies have been suffering heavy losses - and plunging stock prices - even as they continue to add subscribers. And a front-page story in Tuesday's Wall Street Journal warns that the worst may be yet to come... Industry leader XM Satellite Radio Holdings Inc. lost $667 million last year, and rival Sirius Satellite Radio Inc. lost $863 million. The big losses have shaken investor confidence in the industry. XM shares have lost 71 percent of their value this year, and Sirius shares have lost 51 percent... For one thing, a substantial number of people who buy vehicles with pre-installed satellite radios don't activate them, nor do many who receive a radio as a gift. It's estimated that 10 percent of all store-bought radios given as gifts during the last holiday season were never activated. Also, those who do subscribe often abandon the service after a period of time, some switching to iPod adapters to provide music in their vehicle."

http://archive.newsmax.com/archives/ic/2006/8/15/175258.shtml

"Regarding the Technical Aspects of the SDARS Providers XM and Sirius"

"There are significant differences in certain technical aspects of the two SDARS systems as deployed by XM and Sirius. The systems as currently deployed are not interoperable. That is to say, an XM receiver cannot receive the Sirius signal and vice versa. Thus, as is true today, if the proposed merger of XM and Sirius were consummated, consumers would still need to purchase a new interoperable receiver in order to receive the signals of both providers. These differences in system operation, function, and structure make the design and implementation of a single unified and interoperable receiver both complex and expensive. In fact, both XM and Sirius have been working in a joint venture to develop an interoperable radio since 2000. At this time, no interoperable radios have been introduced into commercial production."

"Digital Audio Broadcasting Systems and Their Impact on the
Terrestrial Radio Broadcast Service"

15. We will not establish a deadline for radio stations to convert to
digital broadcasting. Stations may decide if, and when, they will
provide digital service to the public. Several reasons support this

decision. First, unlike television licensees, radio stations are under no statutory mandate to convert to a digital format. Second, a hard deadline is unnecessary given that DAB uses an in-band technology that does not require the allocation of additional spectrum. Thus, the spectrum reclamation needs that exist for DTV do not exist here. Moreover, there is no evidence in the record that marketplace forces cannot propel the DAB conversion forward, and effective markets tend to provide better solutions than regulatory schemes.

16. iBiquity argues that in the early stages of the transition, the Commission should favor and protect existing analog signals. It states that this could be accomplished by limiting the power level and bandwidth occupancy of the digital carriers in the hybrid mode. At some point in the future, when the Commission determines there is sufficient market penetration of digital receivers, iBiquity asserts that the public interest will be best served by reversing this presumption to favor digital operations. At that time, broadcasters will no longer need to protect analog operations by limiting the digital signal and stations should have the option to implement all-digital broadcasts. We decline to adopt iBiquity's presumption policy because it is too early in the DAB conversion process for us to consider such a mechanism. We find that such a policy, if adopted now, may have unknown and unintended consequences for a new technology that has yet to be accepted by the public or widely adopted by the broadcast industry.

One can make a similar argument about HD radio. If you were looking
for improved audio quality and a broader range of selections and found
them on HD radio then there is an excellent chance you would upgrade.
If not then you probbably won't find HD radio worth bothering with.
Since there is no subscription fee the cost is limited to buying a
receiver.

I've tried HD TV and really don't see what all the excitement is
about. The pictures have greater detail, but many of the wide-screen
images are slightly flattened and rapid movement can sometimes result
in weird digital artifacts. Football players sometimes look like
members of the long-lost band of Flatheads.

This subject is really rediculous. Analog tv signals will end in less than a year so you either have to upgrade your tv OR get a digital converter box and then watch tv programs that won't fill the screen. For those who have cable or satellite, you will have a few years more to go before you will also have to upgrade, but in the meantime, more and more hdtv programs will NOT fill your old tv's screen. OF COURSE people will upgrade to an HDTV before an HD Radio. If and when there is an announcement that analog radio signals will cease on a certain date, people will rush to buy an upgraded digital radio.

Your observation only amounts to your dad using common sense. IF your dad's Bose system becomes obsolete and useless, I am sure he will also upgrade to a digital radio.

Really. This is a no-brainer.

Neither of these radios are in production, but are available used. I
was not clear from your message whether you were looking for a new or

For me, If you have the cash for something pretty nice I would say an IC R75 or perhaps a Drake R8 series. The Drakes get quite pricey so that might not be feasible. I would look into the IC R 75 from Icom which would run you between 400 to 600 depending on where you buy and if it is used or not. The older Yaesu FRG 100 models are pretty good too but without the keypads and are almost always used unless someone has one in stock out there.

For a portable smaller radio, I would go for a DX 398 commonly known as a ATS 909 from Sangean. The Sony 7600GR models are excellent as well.

If I were you, I would buy a copy of Passport for World Band Radio from say Amazon or Borders, etc. They have a nice listing of new rigs that are currently on the market and that will also tune you into programs, etc. Band conditions here in North Am are pretty bad right now but there are a lot of nice catches on the lower bands below 10 Mhz. Especially at night of course. The higher bands above 10 MHZ are reserved right now for mostly daytime reception. Other than that, I dont know much else I can tell you.

But what I would say is that you should probably see what your interest is in maybe by buying a smaller and cheaper rig and seeing if SW Radio is for you. Then you could graduate up to a higher priced model say like a Drake, IC R 75, JRC, etc.

Sony and Sangean are probably two of the better radio manufacturers out there in my opinion. However, certain Sangean models tend to be a little flaky.

Thats another nice article. Maybe its time for the Americans and Europeans to boycott that farce called the Summer Olympics. Why should we support the Olympics in a totalitarian outcast state such as Communist China. Where the people work under slave labor conditions, extreme poverty, and totalitarian rule.

Who is cluttering up this site, with repetative sale garbage?
Somebody's idea of a joke...or what ?? Google should promptly dump
this bunch...enough !!! Were bombarded with enough commercials in
other media. Personal ads are acceptable, such as radios, etc. and so
are the Google sidebars which are relevant, but this rubbish today is
highly annoying and so stupidly repetative. Gets the attention of
morons, I guess. End of rant...

Any sort of mandate would be only for digital DARS radios - good luck replacing the existing 800,000,000 analog radios. There is no mandate for digital radio, or for broadcasters to convert to digital. The UK tried it and failed - consumers opted not to purchase expensive digital radios.

Satellite radio is fast becoming a bust, as is digital radio around
the world:

"Directed Electronics elects not to give guidance, because of satellite radio"
Monday, March 17, 2008 at 4:49 PM

While it's of little surprise that either Sirius or XM would elect not to give investors guidance for the year, it looks like Directed Electronics has gone done the same thing.

The company cited a number of factors, including "the historical volatility of satellite radio sales" as well as the pending merger between Sirius and XM. That, coupled with the slowing economy, was enough for Directed to hold off on predicting sales and earnings for the year.

That "volatility" that Directed is referring to might have a little something to do with satellite radio sales being in the toilet.

In the fourth quarter of 2007, gross sales of satellite radio products dropped a whopping 51% to $56.2 million - that's down from $114 million in the fourth quarter of 2006. And for the full year? Satellite radio sales fell 46.4% to $117.9 million, compared to $220.1 million for 2006.

The good news, for Directed at least, is that amended agreement with Sirius will lead to a "reduced risk" in satellite radio business.

http://www.orbitcast.com/archives/directed-electronics-elects-not-to-give-guidance-because-of-satellite-radio.html

The FCC could mandate digital radio all they want, but it is still going to be a failure.

If the FCC was so committed, then they would have mandated it from the beginning, instead of leaving it up to the marketplace to decide.

IBOCcrock - Wishful Thinking Again ~ RHF

Remember every New Radio adds up to Many Dollars
being Churned in the US Economy.

With 'new' All Mode & All Digital Radios costing between
$100 to $300 they are relatively 'cheap' : Considering that
'new' HDTVs are Costing $300 to $1000.
.
Again IMHO It is not -if- It is only a matter of "When"
the FCC Mandates : "All Mode" {Digital} AM/FM/DS Radios
One Part - AM/FM "HD" Radio using IBCO
One Part - Direct Satellite (DS) Radio -or- an Optional
Play-and-Play DS Radio Interface Feature in every Radio.
Plus One Part - WiFi and/or BlueTooth for Direct
Internet "Connectivity"

THE ALL MODE & ALL DIGITAL RADIO STANDARD*

MY BOSE WAVE RADIO RANT -by- RHF

The AM Tuner in the Bose Wave Radio SUCKS !
I could only get the one local AM Radio Station
on it : KVML 1450 kHz} and KCBC 770 kHz in
Oakdale, CA with good Audio.

Sacramento, CA - KSTE 650 kHz and KFBK 1530 kHz
where just audible; but not listenable.

Modesto, CA - KFIV 1360 kHz and KESP 970 kHz
had very poor audio.

SF Bay Area, CA - KCBS 740 kHz and KGO 810 kHz
where just audible; but not listenable.

The Bose Wave Radio's FM Tuner was OK -but-
Once Again the AM Tuner SUCKED !

Your theory might be a bit more convincing, if Bin Laden hadn't taken credit for it.

Oh yeah that's right, Bin Laden is merely and American fiction. He does not really exist, the CIA sends in tapes made by half of a co-joined twin. The other half hides in the White House, which is why we never see Bush and Bin Laden together in public. They are both halves of the same guy.

But did you really know, that the Japan really nuked itself and made it look like we did it? Did it to get world sympathy and America aid dollars. You know how much better they are at electronics and all that. Think about it, if we had really built the bomb Halliburton would have had a no bid contract, and the cost overruns would have been staggering. Not to mention it would have taken two planes to carry it.

It's easier if you use a proper mail/news agent to read the postings.
using a web based news reader is like shaving with a butter knife.

When the mainly communist Chinese spam arrives in my mailbox, I forward
it all to:

groups-abuse@google.com

complete with all headers. a single right click of the mouse does it.

If more people did it, Google might wake up to the irritation they are
causing to the rest of the world. Ninety nine percent of the garbage I
see here is through Google Groups. Google is not Usenet, just a small
tumor on it's side.

Seriously, get a proper news reader and use your own Internet provider's
news server instead of Google. You'll be a lot happier.

You miss the point..My dad didn't buy HD out of necessity.. He did so because he fell in love the picture and sound quality. If a few more people felt the same way about HD radio then the market would work to weed out analog radio.. HD radio would be the new standard instead of teeter toting on dying.

Better watch it now. Dx Douche will be pretty soon accusing you of being a commie Canadian even though you didn't support Communist China. I agree about the Wal Mart. But it tends to be nearly every decent sized retail outfit that gets their junk from Red China. Whether its Wal Mart, K Mart, Target, Sears, Penneys, Dillards, etc, etc etc. I guess we could all shop at the Made in the USA sites such as the companies still here. That probably going to be our only choice pretty soon since Chinese junk will probably be going up in price vastly with the depreciation of the dollar. Not to say it isn't warranted through having a Federal Reserve system which debases the true US currency. Or as one could call it Fake Reserve Notes.

What kind of connectors? Radio shack has some made up in various lengths
with BNC connectors. If that is not what you want then they also have a
number of adapters. Since you are in the LA area check the web site of
Marvac dow, which is an electronics parts supplier.

Have been using an Eton E 10 here in Southern Ont. Canada since this model was introduced. What it doesn't have is Sychronous detection and SSB (sideband). However it is very sensitive, has a good narrow filter, super audio (a problem with a lot of other portables.) The memoy system is, in my opinion, the best in a low priced (100-150$) model.
There are 500 memorie plus, and I configured mine into 25 groups of 20 presets each, and used Page 1 for bdcsts starting at 0100 UTC, page 2 for 0200 UTC...to Page 24 serving as 0000Z (same as). Click of a couple of buttons gets you up to 20 preset stations every hour of the day !!
Also, there are lots of other lower priced portables, and if you are just starting in SW one of these might be satisfactory, but you won't be disappointed with the E10.

No foolin'...and therein lies the reason of why this country is in such bad economic shape. A -large- portion of our manufacturing base has gone overseas to China (slave labor wages, no pollution controls, etc). This country may already have gone past the 'tipping point' -- as in too late to bring back good paying jobs to this country (no matter what that moron Romney said).

Please enjoy your new, lower standard of living. Oh, and try not to worry too much about the tainted food or pharmaceuticals. Pay no attention to the lead in your children's toys. Please ignore the Chinese made CFLs (bulbs) with the counterfeit UL labels that are burning down your house. Just so we get it cheap...

Lets talk about why we are here, to share our DXing skills.

I am enjoying the "new" cold war that is starting up with Radio Moscow taking the lead in bad mouthing the free world and mostly the USA.

I also get a little of the Burma and Tibet but can't understand what I hear.

RCI is also helping Russia by telling all the bad stuff about The USA.

These are RCI freq.'s. and I think some of the are being jammed.

9460, 11770, 13620, 15110, 15120

I am listening to 15120 @ 0300z and it is all ones but, the other freq.'s were all messed up.

Trying to get Russia on a over shoot from the USA (15735@ 0314Z) is all 4's and I can't understand much I'm not even sure it's Russia.

Anyway, lets get back to DXing and less name calling. Some of the name calling is funny but it gets old after 15- 20 post and when it's "hi-jacked" tread then you have to check to see if it's a real reply or BS!

So, come on guys, lets DX.

Plenum Rated Coax Cable and CAT5 ?

Cuhulin,

That is why -if- the Coax Cable is being used in a Building
where Fire Safety is an Electrical Design Issue :
http://www.timesfiber.com/pdfs/Technical%20Notes/1044b-tn.pdf

All {Most} of the Coax Cable and other Cables and Wiring
is Plenum Rated "Fireproof" Coax Cable and Wire.
http://www.bluejeanscable.com/articles/inwallrating.htm
Plus the Cables and Wires are Installed in a manner
that reduces the chance of Fire.

Plenum = HVAC Air Ducts = Rapid Smoke Distribution
System in/during a Fire.

The Plenum Rated Outer "Jacket" of the Coax Cable has
Fire Retardation features and Low Smoke Emmision Attributes.

This special Plenum Rated Coax Cable is usually not
used around the Home.

Coax Cable FAQ {Cable Guide}
http://www.fourpair.com/cableguide/cableguide.htm

For the Shortwave Radio Listener (SWL) Coax Cable
and Fire Safety are usually not an Issue.
1 - Keep your Coax Cable and Antenna Wires away
from Power Lines.
2 - Where Possible separate your Coax Cables from
the AC Power Cords by 3"~4" with 6"`8" or more being
better.
3 - Do Not Bundle-Up your Coax Cables and AC Power
Cords with Plastic Wire ties and other fasteners.

hope this helps - iane ~ RHF {pomkia}

Portable AM/FM Pocket Radio Needs a Better Speaker
-think- Portable {Self-Powered} Stereo Speakers

No Problem -simply- Use the Radio's built-in Earphone Jack
with a Pair of Self-Powered Stereo Speakers. Any Audio
Impedance mismatch can be compensated by the Radio's
Volume Control and the Speaker's Amplifier.

Take a look at these Mini Portable Travel Stereo Speakers

I have been experimenting with ferrite loopsticks over the past couple of months It appears that the diameter of the loopstick itself is a major factor in determining the output level of the antenna. Length doesn't seem to have a major effect.
Rod material with a permeability of 125, such as Type 61 material, is specified to work from 200kHz to 10MHz. In actuallity, the material can work down to near DC, and still retain its properties.
When a material is specified over a frequency range, we are talking about a one-side spec. You can always use the material over a range lower in frequency than its specs call for, but not above that frequency. I don't know if this is because of magnetic hysteresis losses at higher frequencies or not.
There is an initial permeability spec, which is the number that we look at, and there is an effective permeability, which is the real world number. I am not sure if this occurs because of external factors, such as the effect that the wire wound on the ferrite rod has.
The greater the aspect ration, the closer the effective permeability will be to the initial permeability. This is a good thing.
Aspect ratio is defined as Length/Diameter of the rod material itself.
I have used 8 inch long rod material that is 3/8 inch in diameter and I have also used 6 inch long rod material that is 5/8 inch in diameter. The 6 inch 5/8 inch diameter material has higher RF output, and the nulls seem to be just as deep as the 8 inch diameter material.
Since I am using a differential JFET amplifier chain, part of the design parameters include matching the JFETs for gain. This gives you the best common mode rejection from electrical noise, and it also results in deeper nulls. If you order a couple thousand JFETs from the same batch, the characterstics of these devices will be closely matched.
The best approach would be to use something like a Siliconix E431, which is a dual JFET in a single package. This would provide very close matching, since both devices are on the same silicon die.
The ferrite information that I provides is courtesy of Ray, at National Magnetics, except my conjecture about reasons for initial permeability vs effective permeability.

1730. Interep Expected to File For Bankruptcy

A tipster tells us Interep, facing repayment of $100 million in bonds, is expected to file for bankruptcy within a month. The move causes one question the viability of radio's current business model and how long it can last before it has to die or completely transform itself into something new and different.
Back in the day, radio ruled geographic and demographic targeting. Certainly, it still delivers on that but there are so many more efficient methods of achieving effective targeting that radio simply can't compete in its current form. The competition of the playing field has exponentially increased over the past ten years and media that can't adapt simply will not make it.
We don't believe radio will ever disappear. Not at all. Though it's clear it's business model will need to change to survive.

Thanks for the additional links Mike. China is no longer the insular and quaint agrarian country it once was. It is has become a toxic monster that is truly a menace to the entire world. Tragically it is not going to get better any time soon because the rest of the world has no vision. Preferring to think in terms of the next fiscal quarter instead of the next generation.

Our neighborhoods, "commons" places like stoops and parks and streets

Hi Barney,
YUP, what a shame that this stuff goes on BUT this is a free world so they can say and do what their mind feels.

Have you ever known any of these "KINDS" of people, listened to what they have to say? I have maybe known one or two in my life and if you look at their lives they are a mess.

I'll just stay away either here in the rice paddies or out in the desert, wear my AFDB and stay out of the way until my "KIND" of people come and take over the world. Spend a night out in the desert and watch the sky's, you'll see the dawn of a "New World Order" heading our way BUT, keep your AFDB on tight and the shiny side out or the "Military" will take control of your mind and enslave you to "their" way of think.
Set your radios up at 2am and just off tune from the world most powerful short-wave station and listen to "The Riders" bring messages on the new world order and the timing. DX the stars, listen to the oceans look at the sky's, our day is coming.
I have transported my consciousness into artificial electronic Zen. I have covered the inside of the windows with Mind Altering Moonscapes to help with the mood as I pop my "SUPER MIND ZYGON POWER PILLS" I find that I can induce a hypnotic trance then while my mind is primed I can load pre-recorded behavioral mind scripts in to "MY SUPER MIND". Yo, I have to get on with the transition so I'll close for today. Be cool, keep the faith.

I have found over the last 20 years that Radio Netherlands has much better, truer and more detailed Short-wave news! The only problem is that Radio Netherlands has cut way back on the number of broadcast.

Blog Page Text -follows-
The BBCWS website carries the following announcement:

* BBC World Service shortwave transmissions to the Caribbean will
close on March 23rd 2008.

* Many listeners in the Caribbean and around the world no longer
listen via shortwave.

* Instead they are choosing to listen to the radio on other platforms
including FM, satellite and online.

* As a result, the BBC has invested in new FM services to the
Caribbean.

* BBC World Service programmes can now be heard on FM 24 hours a day
in Antigua, Trinidad and Jamaica as well as via partner stations in
almost all of the Caribbean islands.

BROADCAST RADIO REALITY CHECK :
[Internationa Shortwave Radio -versus-
In-Country AM & FM Radio]

COST - The BBC has better more Cost-Effective means of Getting-Their-Message-Out in the Caribbean Region to the Peoples of the Caribbean by using local AM & FM Radio Stations in their Native Languages using the common every-day AM/FM Radio that is everywhere : Home + Office/Work + Car/Truck -versus- the specialized and more limited and more costly Shortwave Radio/Receiver.

GROWTH - The use of the AM/FM Radio means that the BBC World Service can Expand their Number of Radio Listeners because the Number of AM/FM Radios and AM/FM Listeners (BCLs) is Many-Times-Greater-Than the number of Shortwave Radios and Shortwave Listeners (SWLs).

SIGNAL & AUDIO - To the Local Radio Listener the RF Signal is stronger and Audio Quality of the BBC World Services Broadcast is Better and Clearer -when- Compared to the former International Shortwave Radio's RF Signal 'fading' and Audio Quality 'background noise'.

THE NEXT GENERATION - The BBC World Service is interested in the Next Generation of Audio Content Consumers and they are on the Internet and many still do Listen to AM & FM Radio : The 'older' Shortwave Radio Listening (SWL) Generation is dying-off and so too is the need to broadcast to that generation.

GETTING THE MESSAGE-OUT - The BBC World Service's Job is To-Get-The Message-Out from a Brittish (UK) Point-of-View to the Next Generation of World Citizens and Inform them with News and Information from the UK. This Next Generation is Tomorrow's Local, National and World Leaders and the BBC World Service what's to Influence them while they are Young and Open to What Is Out-There-in-the-Wordl beyond their City, State and Nation.

TBL - This Change Is About : The Biggest Bang {World Wide Voice} For The {Limited Broadcasting} Buck.

do i like it 'no' -but- you can not turn your back on reality -cause- it just might run you over when you do ~ RHF

Whats wrong DxDouche? Has your maxi pad leaked all over your chair today. So
why didn't you hit the road when you claimed that you were going to. Or is
it another effect of having that drug addled brain and alcohol problem that
you've had for some time.

One person won't be able to do that, but that would be above your area of critical thinking. It will come as the citizens errrrrr now consumers start to say no through whatever means they may use. Oh I forgot, Comrade, you wouldn't believe in citizenship since you're such and obedient serf. I laugh at your so called conservative ideals or lack thereof since most of the so called conservatives don't exist anymore. Just a bunch of fascistic types of a socialist bent no matter what party they claim to belong to. But thats right, your party politics are more important than the survival of the Good Ole USA or the Constitutional rights of individualistic Americans. Right there, pussy boy.

Is that pollution that goes over Lake Michigan still clouding your thinking.
You know, the pollution from Chicago and the NW Indiana steel mills. That
explains why your mental state resembles that of someone on drugs. That or
lead based paint still infects the structure of that hovel where you live

Nah, its just the fact that you've decided to become the newsgroup prick and
start telling people what to say and how to think. I think I can speak for
myself and think for myself who I decide to respond to. But since you
decided to come across as a smart ass, I've decided to respond back to you.
So if you can't deal with that, I would suggest that you figure out how to
go get _________.

Pocket-Radio,

The Genesis {Theme} of all that I have Posted recently is :
That the Survival of "Free" Over-the-Air AM/FM Radio is
dependant on the Blending of both :
* Old Media AM/FM Radio Stations
* Coupled with New Media Inter-Active WebSites etc
* Creating Active Listeners Involvement by the 'next
generation' of Audio Consumers.
* Doesn't Matter -if- the Broadcast Mode is Analog or Digital.
* The Inter-Active WebSite will Be Fully Digital and that is
what 'matters' to the younger and future Audio Consumers.

Pocket Radio - Indeed HD-Radio may be a Farce.

But Wishing That HD-Radio Will Go Away :
Won't Make HD-Radio Go Away

And Whining About HD-Radio :
Won't Make HD-Radio Go Away Either.

Ain't Going To Make HD-Radio Go Away Either.

Money and Capital Investment -is- Behiind HD-Radio and It will
take Money or the Big Losses of Money to Put a Stop HD-Radio.

When the AM/FM Radio Broadcast Industry is committed to
spending Hundreds of Million Dollars over the next 10 Years
to make HD-Radio Happen :
HD-Radio Ain't Going To Die Quick -or- Easy.

With this Investment HD-Radio and the Capitalization of
HD-Radio Assets {IBOC Radio Stations : The Media
Corporations will Exercise their Political Muscle with
the Memebers of the US Congress* to Act to Protect

US Elections.

** Remember that the majority of Media Corporations are in-fact
Mega "Multi" Media Diversified Companies that own TV Stations

REALITY - Somewhere down-the-line the FCC will be Forced

- I think you are being arrogant by expecting the taxpayers
- of the UK to provide a free radio service for you to your
- specifications.

Sun Chaser,

Actually the BBC has done that very thing.

Two Questions presented to AM/FM Radio Listeners

Q # 1 - Would You Buy a Shortwave Radio to be able to
Receive* the BBC World Service; and Listen to the BBC
World Service on the Shortwave Radio ?
Answers : YES ~ 7% : NO ~ 63% : DTS/IDK ~ 30%

* This assumes a Local In-Country Shortwave Radio
Broadcast to assure the same Signal Level and Audio
Quality as a Local AM/FM Radio Station

Q # 2 - Would You Listen to the BBC World Service on
your present AM/FM Radio Buy -if- You could Receive
the BBC World Service Locally on that AM/FM Radio ?
Answers : YES ~ 49% : NO ~ 21% : DTS/IDK ~ 30%

The transition from Shortwave Radio to AM/FM Radio
allows the BBC World Service to have the 'potential' to
Grow the Number of BBC World Service Radio Listeners
by Seven Times (7X) over the Next Decade.

What applies here to the BBC World Service -wrt-
In-Country AM & FM Radio Re-Broadcasting of their
Programming; also applies to the VOA, RNW, CRI,

VOR, etc, Etc. ETC !

the truth is out there - riding on a radio wave ~ RHF

How much time do you devote to trying to convince people about HD Radio?

Not only in your all day postings...but now you have a blog?

Are you one of those who is unhappy you can't DX 1kw stations out of
tennessee anymore?

Otherwise, whats your point? If HD takes off....then it does.

If it doesn't....thats the end.

Whats the point in trying to convince people of something you have no
control over?

>>>>
So, how much time did you waste on this post? Taking over for Eduardo
(where is that fake Hispanic, anyway). See, if you had a blog, all it
takes is one simple post:

HD Radio is a farce!

Happy St Paddy's day...

Paddy was driving down the street in a sweat because he had an important meeting and couldn't find a parking place. Looking up to heaven he said, 'Lord take pity on me. If you find me a parking place I will go to Mass every Sunday for the rest of me life and give up me Irish Whiskey!'

Miraculously, a parking place appeared.

Paddy looked up again and said, 'Never mind, I found one.'

ababab

Father Murphy walks into a pub in Donegal, and says to the first man he meets, 'Do you want to go to heaven?'

The man said, 'I do, Father.'

The priest said, 'Then stand over there against the wall.'

Then the priest asked the second man, 'Do you want to go to heaven?'

'Certainly, Father,' was the man's reply.

'Then stand over there against the wall,' said the priest.

Then Father Murphy walked up to O'Toole and said, 'Do you want to go to heaven?'

O'Toole said, 'No, I don't Father.'

The priest said, 'I don't believe this. You mean to tell me that when you die you don't want to go to heaven?'

O'Toole said, 'Oh, when I die, yes. I thought you were getting a group together to go right now.'

ababab

Paddy was in New York ..

He was patiently waiting and watching the traffic cop on a busy street crossing. The cop stopped the flow of traffic and shouted, 'Okay, pedestrians.' Then he'd allow the traffic to pass.

He'd done this several times, and Paddy still stood on the sidewalk.

After the cop had shouted, 'Pedestrians!' for the tenth time, Paddy went over to him and said, 'Is it not about time ye let the Catholics across?'

ababab

Gallagher opened the morning newspaper and was dumbfounded to read in the obituary column that he had died. He quickly phoned his best friend, Finney.

'Did you see the paper?' asked Gallagher. 'They say I died!!'

'Yes, I saw it!' replied Finney. 'Where are ye callin' from?'

ababab

An Irish priest is driving down to New York and gets stopped for speeding in Connecticut. The state trooper smells alcohol on the priest's breath and then sees an empty wine bottle on the floor of the car.

He says, 'Sir, have you been drinking?'

'Just water,' says the priest.

The trooper says, 'Then why do I smell wine?'

The priest looks at the bottle and says, 'Good Lord! He's done it again!'

ababab

Walking into the bar, Mike said to Charlie the bartender, 'Pour me a stiff one - just had another fight with the little woman.'

'Oh yeah?' said Charlie, 'And how did this one end?'

'When it was over,' Mike replied, 'She came to me on her hands and knees.

'Really,' said Charles, 'Now that's a switch! What did she say?'

She said, 'Come out from under the bed, you little chicken.'

ababab

Flynn staggered home very late after another evening with his drinking buddy, Paddy.. He took off his shoes to avoid waking his wife, Mary.

He tiptoed as quietly as he could toward the stairs leading to their upstairs bedroom, but misjudged the bottom step. As he caught himself by grabbing the banister, his body swung around and he landed heavily on his rump. A whiskey bottle in each back pocket broke and made the landing especially painful.

Managing not to yell, Flynn sprung up, pulled down his pants, and looked in the hall mirror to see that his butt cheeks were cut and bleeding. He managed to quietly find a full box of Band-Aids and began putting a Band-Aid as best he could on each place he saw blood.

He then hid the now almost empty Band-Aid box and shuffled and stumbled his way to bed.

In the morning, Flynn woke up with searing pain in both his head and butt and Mary staring at him from across the room.

She said, 'You were drunk again last night weren't you?'

Flynn said, 'Why you say such a mean thing?'

'Well,' Mary said, 'it could be the open front door, it could be the broken glass at the bottom of the stairs, it could be the drops of blood trailing through the house, it could be your bloodshot eyes, but mostly.....it's all those Band-Aids stuck on the hall mirror.

1803. COAST TO COAST AM: A LISTENERS MANIFESTO APRIL 2008

Potential guests of Coast to Coast AM should reconsider getting on this show and if you send Noory a DVD or book of your topic, he won't read it. He's already stated that he gives them away. I've heard guests query Noory and you can tell by listening to Noory's voice that "yeah, I've looked at it" how he inflects his voice falsely indicting that he hadn't. Then Noory gets defensive with the guest as a result of the question. What does that tell you the listener about Noory's demeanor? He doesn't care about the program. Very unprofessional.

Consequently when Art Bell hosted the show it was a proud flying show, that had a reasonable amount of intelligent flow of thought. This is the last straw. The owners of this program have really dumbed down this program to the point where I'm embarrassed to even mention it in any conversations. I'm tired of hearing both Noory and Punnett complain about 'who's going to do the show' and Noory whining about I'm going to be here and Punnett does the same thing. What is this crap?
We never heard Art Bell complain, hell Art used to do the show 7 days a week for 6 hours! We the listeners don't care. Just do the show, and do it as best you can is that too much to ask?

What I'm going to reveal is to make you think how Coast to Coast AM is being sabotaged.

First instances. Do you listen to Coast to Coast AM on the weekends? Have you noticed how they added commercials? Also when you listen to George Noory he does not read with authenticity when he reads his commercials. One commercial - A plug for gold - he actually stutters! He also makes fun of you the listeners in those commercials by making silly inferences. Such as alleging jumping up for joy, then "you are depressed." What the hell is that! Noory and the shows producers are using a little trick called "subliminal embedded commands." Look it up! You should be tired of being subjected to that clandestine abuse!
There is way to get our message across about the abuse. Get them to rethink the power of the consumer...call the 800 numbers and tell the operator that you will not buy their products. Send a message! And send them the bill - they'll have to pay for that 800 call.

Second instance. George Noory, Ian Punnett are both yes 'talking heads' they ask mundane questions, try to sound sincere when addressing the host by first name - if you listen closely you can hear both hosts mock their guest by the way they inflect their voice.

Third instance. For those of you that call into the show and state how Noory and Punett are doing such a great job - spare yourselves the call. Both these alleged radio hosts are worthless and provide absolutely no

genuine input when they interview the guests. Noory and Punnett on the descent of their usefulness. I'm sorry both Noory and Punnett but you both do not sound sincere and your hearts are not into the program like Bells' was. Certainly its hard to measure up to a man with a gift for programming but Noory and Punnett do the show injustice.

Take for instance the shows on these dates.

Host: George Noory
Thursday March 6th, 2008
Lizard Man, Reptoids, & Mutilations, John Rhodes

In the first hour of the above show, Noory had a good hour with a guest who was talking about the financial situation, it was harrowing but at the top of the hour he abruptly cut off what could've been a great show to do "Lizard Man, Reptoids, & Mutilations." I only listened to fifteen minutes of Rhodes then I turned the station. What happened to the open format Noory? Also Noory if your not qualified to talk about something - don't hedge.

This next instance is with Ian Punnett. Punnett claims to have a broad overview and an open mind to to the program content but it is apparent that George Noory feeds him the scraps. Take for example this show.

Host: Ian Punnett
Saturday March 1st, 2008
Neo-Darwinism & Academic Suppression
Film Producer of Expelled: No Intelligence Allowed (view movie trailers)

For those of you that uninformed. Ian Punnett is a seminary student. Is Punnett qualified to talk about the issue?
No - the majority of his questions were poorly prepared as if taken from a prepared course outline. As a matter of fact the show had two more hour left when Punnett abruptly said "I've asked enough questions that I wanted to ask, so I'm going to let you go." Not fair to the guest -- deprived of listener input. In essence, Punnett is a charlatan.
The producer of the film was great and I will see the film but Punnett should have let the show run the four hours and let the listeners chime in. Key words folks - listeners. That's you. But I'll be fair Punnett did promise that he would do another show as the movies release (April 2008) comes up. But please do not let Punnett do this interview, he has neither the acumen or desire to pull off a genuine interview.
Noory would screw it up even more so let George Knapp do it.

[Go to http://expelledthemovie.com and view the trailers. This is going to be one red hot movie.]

Finally let me state I will N E V E R BUY from any Coast to Coast AM advertisers. You listeners are the power these guys in

suits that are running the program, are dogging the issues to protect their financial interests. Wonder why there aren't more guests on Coast to Coast AM talking about the economy? Doesn't take a rocket scientist

to figure it out, folks.

I've been a listener of the Art Bell show, now Coast to Coast AM, since about 1993. I realize that Art Bell is long gone - he has our blessings. For those of you long time listeners you may want to find the dialog about his interview with Father Malachi Martin (CTC April 5th, 1997) - that program affected Art Bell to the point to where he came on the show and stated that he (Bell) was a man of his word and he would not tell - what Father Malachi portends. But I believe Art Bell will resurface to the airwaves/shortwave after a catastrophe/event. If he doesn't then you'll know, pardon the pun, the men in black have told him to keep silent.

Finally, George Noory, you do not sound genuine. You mock your guests with stale quips like "yeah really, wow, yup yup, I agree" its agonizing. I'm tired of both you and Punnett dragging what was once a proud show down into the dirt. Now will you both please reconsider your careers and leave before you destroy the spirit of the show. I find myself already turning the dial because the show can be so agonizingly painful to listen to.

Burr,

BCL News - Radio Netherland WorldWide (RNW)

TIP for Shortwave Radio Newbies :
In general I find that the Shortwave Radio Broadcast
Schedules that are Presented and Hosted by
BCL News .IT - http://www.bclnews.it/
are both Easy to Find and Use -versus- trying to find
the same information on the individual websites of each
of the International Shortwave Radio Broadcasters.

Now Roy,
I gave him two things, one was a listing of all freq.'s being used in
the world and the other was just for info about RN.

I consider this post of your's as stepping on my toes a little. Maybe
you would take a minute and think about what someone says before you tell
them they are wrong!

You know a lot BUT you don't know it all and sometimes the way you say
it causes a little hard feelings.

Burr

Arrogance is the defense of lack of thought, consideration of others, etc..etc... But the BBC says it's interested in reaching more audience...What, teenagers and yuppies running around listening to the latest electronic gimcrack?Hardly...get real. International cooperation can't survive without some form of direct communication, and won't with the kind of top-down control that's gradually choking off your and my right to have access to direct, targetted news. etc. from any country, unfiltered, and in the raw. You and I may not agree with what is transmitted, but that's the point.. The right to be heard. But never mind, dream on, until all SW disappears and then pay the piper (and ancillary dollar charges for cable, staellite, etc, the better to empty your wallet). BBC staff (working stiffs) probably agree with me but are powerless to resist the blithering idiots at the top. But again never mind, go ahead and wreck another venerable institution. It's Turkey time..... again..... (End of Rant)

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable
time here on RRS trying to educate the faux, the debutantes, and
those who tote..

Therefore, I've simply decided to give up RRS.

Goodbye, I sincerely hope that you all find your niche in the

I sent out my measly $6.00 to the six people on the list. Within 7
days, I started: getting $$$$$ in my account!
I was shocked! I figured it would end soon, but the CASH just kept
coming in. In my first week, I made about $25.00.By the end of the
second week I had made a total of over $1,000.00! In the third week I
had over $15,060.00 and it's still growing.This is now my fourth week
and I have made a total of just over $26,000.00 and it's still coming
in rapidly. It's certainly worth $6.00 and 6 minutes to send it out.

What are folks using these days to record audio? MiniDisc, DAT or
digital audio?

Any recommendations on digital audio recorders? That's what I'd go for I

Anytime! This information is for anybody that wants to try their hand at designing their own active antenna. I am glad to share what I learn.

You must have sat in front of a microwave antenna for a very long time
to achieve the level of brain damage that you now have.

Why don't you and Burr head get married and take a sailboat cruise
around the world with no internet or sw radio access?

I have an Edirol R-09 - a superb digital recorder with an excellent well lit display and easy downloading of recordings to a PC so that recordings can be sent to others. With a 2 Gbyte SD card records 70 hours in mp3. The controls are supremely easy to manipulate with old thumbs and you cannot lose recordings unless you specifically delete them consciously. Easily worked in a hurry on DXpeditions in poor light - gives foolproof high quality recordings. Marvellous PC interface. Quite a pricey item but I am supremely happy with mine.

Upgraded from a Sony MiniDisc which I didn't like:
* can loose recordings
* can't see the display in poor light like on DXpeditions
* poor controls can lead you to pushing the wrong control.
* only 70 minutes of recording.
* difficult to navigate between recordings
* extraordinarily cumbersome to download recordings to a PC.
* superb sound quality

Still laying on your lard butt again? Did you ever get that crust off your shorts which makes you grumpy. Even those Canucks know what soap is. Can the Michigan Moron say that?

Depends what your view is on Christianity is and to what level you think
that consumerism is a bad or good thing. Personally, I don't see some
consumerism to be such a bad thing as long as its not so advanced as it is
now. After all, someone has to buy things that create jobs, employment
opportunities, and business opportunities. Otherwise, we would most likely
live like people in Chad, Mozambique, or some other developing country. The
problem is that China, Japan, and the rest of the Asian Rim is getting rich
at the expense of the US job market being outsourced overseas while our own
people face underemployment and unemployment.

NASA STATEMENT ON THE DEATH OF ARTHUR C. CLARKE

WASHINGTON - The following is a statement from Alan Stern, NASA associate administrator for the Science Mission Directorate at Headquarters in Washington, regarding the death of Arthur C. Clarke:

"Arthur Clarke was a gifted writer of science and science fiction, and
an unparalleled visionary of the future, inspiring countless young people throughout the middle and later 20th century with his hopeful vision of how spaceflight would transform societies, economies, and humankind itself.

"Although his personal odyssey here on Earth is now over, his vision lives on through his writing; he will be sorely missed."

http://groups.google.com/group/shortwave-listener-qsl-reports

As -Doodle- points out I can't do anything about the Future of
"Free" Over-the-Air AM/FM Radio and whether IBOC HD-Radio
will suceed or fail. There are Big Money Forces on the Move
and my few little consumer dollars ain't going to change nada.

IBOCcrock,
Here is a Promo for your "HD Radio is a Farce !" BLOG
HD RADIO FARCE - http://hdradiofarce.blogspot.com/

However I am a Shortwave Radio Listener (SWL) and I can
share what I find and Listen to on the Radio - So my Blog

is about simple about posting Shortwave Listener Reception
Reports and matters affective What's On The Shortwave Radio.
It's a Google Group : So Others May Join and Also Share
Their Shortwave Listener Reception Reports. It ain't Fancy
but it is Free of most of what is Bad here on RRS.

=PS= Unlike Most BLOGs : It Ain't About Me : It's simply

What? No mention of his direct responsibility for much of modern space
activity (his postulation of what is known widely as the Clarke Belt, a zone
of space wherein objects fall at exactly the same rate as they orbit the
Earth, making geostationary/geosynchronous satellites, and, therefor, global
satellite communications possible).

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable

Therefore, I've simply decided to give up RRS.

Insignia NS-DV4GC

http://tinyurl.com/2f9khq

The good:

It has 4Gb built in and is expandable through a miniSD slot.

It has a stereo line in record function.

When the USB is plugged in, the device shows up as drive on the computer screen. Files may dragged and dropped in both directions.

The battery is user replaceable. A lot of portable MP3 players have a built in battery. When it wears out, you throw the thing away. Sad.

Built in FM radio. Very good reception. It can record Stereo or Mono signals.

Excellent resolution. 320 X 240
It plays AVI videos, Wav files and MP3s

Claimed twenty hour battery life.

The bad: It's discontinued, but can be found on sale at some Best Buy stores. Be careful, some of the stuff they sell is junk.

This unit is supposedly similar to some Iriver models, but i couldn't find any of those.

Ipods were a disappointment. Overpriced for the features. They look good, but that's about it.

blathering nonstop about for the last week or so? Surely they are bringing all their journalistic broadcasting skills to bear on the problem of latest incident of corporate welfare (Bear Stearns bailout) such which committed $30 billion in taxpayer money to guarantee the riskiest part of Bear Stearn's portfolio in the JP Morgan sale.?

Or maybe these staunch CONservatives have had no time to devote to that violation of their oh so red white and blue principles of "rugged individulism...free market...laizze faire...survival of the fittest capitalism..." because they are honed in on the the killing of freedom seeking Tibetans by their communist Chinese oppressors? Surely Rush, Sean, Bill, Glen, et. al. are all railing nonstop against Red China during this historic event to galvanize public opinion in support of the courageous Tibetans!

Nope. These freedom loving CONservatives can't be bothered with such trivial events. Instead they continued their nonstop rants about a nobody preacher in Chicago for the fourth day in a row.

Richard,

As John Plimmer points out one of the Key Features
of any stand-a-lone Digital Audio Device for Recording
your Radio Listening is the Transfer Media between your
Device and your PC; so that you can Store it long term;
and Share it with others.

The very common and relatively low cost SD Memory Cards
are an excellent Transfer Media to accomplish that task.

ABOUT - Secure Digital (SD) "Flash" Memory Card
http://en.wikipedia.org/wiki/Secure_Digital_card

Here is a Google Search for : Voice Audio Recorders SD Card
http://www.google.com/search?hl=en&rls=com.microsoft%3Aen-us&q=Voice+Audio+Recorders+SD+Card

Look around and find a Device that is in your Price Range
and meets your needs; including as John Plimmer points
out a Form / Fit that you find easy to use plus Operations /
Functions that make sense to you as a user.

Stand-a-Lone Voice Audio Recorders are Hand-On Devices
and before you 'buy' one : You should get your Hands-On
a few to "Feel" and "See" what is Right-for-You.

this is all just common sense advise -but- often it pays
to be reminded of the simple things that matter ~ RHF

Quite likely because NASA had so little to do with geosynch satellites
which were first proven by Hal Rosen and Tom Hudspeth of Hughes

Considering it is virtually impossible for Hillary Clinton to win the delegate count, or even the popular vote, do you think she will be able to steal the nomination from Senator Obama via the unelected "super delegates" (properly they should be called party insiders or the establishment ruling elite)?

The crazed look of desperation in her eyes is becoming more evident every passing day. And that makes me worry about Sen. Obama's safety.

Terrestrial radio's biggest problem is retaining advertising revenues as more ad dollars are siphoned by the internet. In 2007 total ad dollars for radio fell to where they were in 2003. That point to an industry going backwards, not forward, Cramer said.
The average market cap of terrestrial radio companies has declined by a staggering 80% over the last five years. But the bottom isn't even in yet, as far as Cramer can tell
Either way, the bottom line remains the same. Cramer expects the terrestrial radio companies to go down harder than almost anything else and he would not own any of them under any condition right now.

No thanks, I know how to do a google search and like most normal people
I can find the RNW web site.

Hey, have you ever listened? Nope.

Depends on what bribe is offered. Remember, US politics is not about substance but more on 'what can I do for you' if you vote for me. Total corruption it is. If you think Obama is any different, just wait for a few months. Democrats and Republicans are really no different, each are as corrupt as the other.

So can Clinton out bribe Obama? Likely yes.

Mohawk,

The Democrat National {Central} Committee of the USA
lead by "Screaming" Howard Dean will allow the States
of Florida and Michigan to Vote/Re-Vote.
http://elections.foxnews.com/2008/03/20/ambitious-re-vote-plans-for-michigan-florida-heading-down-the-tubes/

The Super Deligates will be "Forced" to Vote for Hillary
OR ELSE .

For the 1st time in modern history large numbers (20%)
of African-Americans will stay home and NOT Vote.

For the 1st time in modern history large numbers (15%)
of African-Americans will Vote for the Republican US
Presidental Candidate.

=IF= The Democrat Party Turns It Back on Barack [X]
Obama the next generation of African-Americans will
Turn Their Backs on the Democrat Party in increasingly
Large Numbers. Many will be come Independants and
some will be come Republicans.

For the Democrats it is Barack [X] Obama and a 'chance'
at Winning -or- Hillary R. Clinton an a Loss in 2008 and
many Elections to come.

I am betting that common sense will prevail and Barack
[X] Obama will be the Democrat US Presidential Candidate.

the democrats have no other 'choice' ~ RHF

Mohawk,

The Democrat National {Central} Committee of the USA
lead by "Screaming" Howard Dean will allow the States
of Florida and Michigan to Vote/Re-Vote.
http://elections.foxnews.com/2008/03/20/ambitious-re-vote-plans-for-michigan-florida-heading-down-the-tubes/

The Super Deligates will be "Forced" to Vote for Hillary
OR ELSE .

For the 1st time in modern history large numbers (20%)
of African-Americans will stay home and NOT Vote.

For the 1st time in modern history large numbers (15%)
of African-Americans will Vote for the Republican US
Presidental Candidate.

=IF= The Democrat Party Turns It Back on Barack [X]
Obama the next generation of African-Americans will
Turn Their Backs on the Democrat Party in increasingly
Large Numbers. Many will be come Independants and
some will be come Republicans.

For the Democrats it is Barack [X] Obama and a 'chance'
at Winning -or- Hillary R. Clinton an a Loss in 2008 and
many Elections to come.

I am betting that common sense will prevail and Barack
[X] Obama will be the Democrat US Presidential Candidate.

the democrats have no other 'choice' ~ RHF

.... or otherwise the Republicans will most certainly win under McCain.

RHF your input is appreciated but using FOX NOISE as a source really
undermines your credibility. It is known as FAUX NEWS for a reason -
its mission is to promote an agenda not to objectively report the
news. That is why they employ Goebbels' propaganda technique of
repeating the lie over and over until it becomes accepted as truth.
Thus was born their incessant mantra "FAIR AND BALANCED" .

Your analysis on Coast to Coast is spot on. I do and have listened to this program often, and without doubt, the current regime is several notches below the quality of the Art Bell presentations. Noory, is not bad, but the others are complete amateurs and should be removed immediately. They should offer Art Bell a bigger piece and let him run the program.

Yes but the entire US media, print or TV to radio news is completely messed up. One cannot really rely on what they say. Even the weather reports are suspect. ... then you have the ranting religious nutbats attempting to make some strange point that has nothing to do with reality.

The 'Big Lie' is wrongly attributed to the Nazis. In fact, it was THEY
who were claiming that the Communists were perpetrating it.

The Nazi's didn't originate the concept but they certainly employed
it. In Mein Kampf Hitler criticizedt the Jews for their perceived use
of it. Sixteen years later Goebbels refined and used the technique
with great success.

I caught Art Bell and posse on 3807kHz this morning (like 2AM PDT). It seems they have a regular group on that frequency, though as you know, they might adjust it a few kHz as needed. There is a SKYPE/phone patch to one of the HAMs in La.

Needless to say not much of a DX challenge for the SF Bay area and I venture the whole west coast. Art and the guy in LA (call escapes me) put out really beautiful signals. The only weak signal I heard was IIRC out of Kentucky.

Journalism in America used to be known as "the fourth estate", serving the public in the role as a quasi checks and balance apparatus. Regretibly they now serve the interests of their masters - corporate America.

In 1983, 50 corporations controlled the majority of all news media in the U.S. Today 5 huge corporations -- Time Warner, Disney, Murdoch's News Corporation, Bertelsmann of Germany, and Viacom (formerly CBS) -- now control most of the media industry in the U.S. General Electric's NBC is a close sixth. By the by, General Electric is one of the country's largest defense contractors. Do you really think they were going to report that the Shrub was lying about Iraq having wmd's? They made hundreds of millions of dollars off the war.

"The fourth estate" has become "for the estate." Transnational corporations and Governments being the "estate". "Whose bread I eat whose song I sing."

There are plenty of sites that track Cramer's "advice" to show that it is
mediocre at best.

Transcript of Obama Speech
http://www.politico.com/news/stories/0308/9100.html
- - - - Excerpt - - - -
I am the son of a black man from Kenya and a white woman from Kansas.
I was raised with the help of a white grandfather who survived a
Depression to serve in Patton's Army during World War II and a white
grandmother who worked on a bomber assembly line at Fort Leavenworth
while he was overseas. I've gone to some of the best schools in
America and lived in one of the world's poorest nations. I am married
to a black American who carries within her the blood of slaves and
slaveowners -- an inheritance we pass on to our two precious daughters.
I have brothers, sisters, nieces, nephews, uncles and cousins, of
every race and every hue, scattered across three continents, and for
as long as I live, I will never forget that in no other country on
Earth is my story even possible.

(OT) : 2008 Election Politics - John "Smiley" McCain

Making Republican US Presidental Candidate
John Sidney McCain III "LIKE-ABLE"
http://en.wikipedia.org/wiki/John_McCain
http://www.willisms.com/archives/azsenjohnmccain.gif

WHY "LIKE-ABLE" :

1 - People Have Got To "LIKE" John "Smiley" McCain
To Vote for Him.
http://newsimg.bbc.co.uk/media/images/41689000/jpg/_41689390_203mccain_ap.jpg

NOTE - John "Smiley" McCain at Age 71 Years
is the Oldest of the Presidential Candidates.
http://projects.washingtonpost.com/2008-presidential-candidates/

2 - So People Have Got To Perceive John "Smiley" McCain
as "ABLE" at His Age to Be President.
http://a.abcnews.com/images/Politics/ap_mccain_nra_070921_ms.jpg

RHF Asks : I Am I Crazy . . . Remember "I Like IKE !"
http://ejw.i8.com/ike/ike.html
http://www.sheetmusiccenter.com/70/221.jpg
http://www.beyondbooks.com/ush12/images/00012268.jpg

Hence the Republicans need to start referring to
John McCain as John "Smiley" McCain
http://blogs.guardian.co.uk/news/archives/McCainBLOG.jpg

Hence the John McCain has to Start off every Stump Speech
with : Hello I am John McCain and I am Running for President
and then Flash a Big "SMILE" 180/360 Around the Crowd
http://blogs.chron.com/beltwayconfidential/apmccainsmiling.jpg
for 8~12 Seconds [Being LIKEed]
-and- Wave a Hand-in-Hello 'looking'
both Healthy and Energetic = ABLE
http://blogs.thestate.com/bradwarthensblog/images/mccain.jpg

Every Photo between now and the Election has to show
John "Smiley" McCain Smiling ! and Being Like-Able :o)

Rev. Wright speaks the truth. Or at least close enough for a preacher.
John Hagee says the Catholic church is the Great Whore. He blames
Americans for both 9-11 and Hurricane Katrina. John McCain claims him
as a spiritual advisor.

Personally, I like the idea of an angry black man running the USA.
Think John Shaft with nukes.

Radio stations should be owned by eccentric millionaires, not public
companies.

Step 1 is to only get real time news from the BBC, DW, RNI Kol Israel, VOA or any other major non-com radio service. They are more careful about reporting rumors and hearsay.

Step 2 is to watch the news only on You Tube, via your favorite trusted blog. I suggest most of you use www.mediamatters.org as a default, just so you can see how twisted up the mainstream media is.

Step 3 is to listen carefully to those in power and their noise machine. They often speak the exact opposite of the truth; they accuse the mainstream of being radicals and claim to represent the people. What hooey.

You would have preferred a Clinton-esque move like dissing a friend for
political expediency? Until you hear the full context of those snippets
you shouldn't judge. I admire Obama's loyalty. +10 points.

Might have to agree with Wasabi breath. :-) His lead over Billary continues to shrink and McCain has opened up a 8 pt lead over Obama. This gem should help him immensely:
"The point I was making was not that my grandmother harbors any racial animosity. But she is a typical white person. If she sees somebody on the street that she doesn't know. . .there's a reaction in her that doesn't go away and it comes out in the wrong way."

So you actually think CBS,NBC,ABC,MSMBC,CNN are fair and balanced? Fox is
FAR and AWAY more balanced that the liberal MSM has been in this election.
The fawing they do for Obama is sickening.

Here ya go. read what real heroes and veterans say about
this loser. this was used by the bush crime family, swift-boaters
in 2000. i wouldn't vote for this guy for anything. 100 year war?
just another awol bush type.

You really are a fucking kook. Read Radio World March 26th Edition page 84 - "HD Radio: Truly a Failure", written by Bernie Wise President of Energy-Onix Broadcast Equipment Corp. None of his shipped 255 broadcast transmitters for 2007 included requests for HD/IBOC. He goes on to lsit the many failures with HD/IBOC.

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable

Therefore, I've simply decided to give up RRS.

Zoom H2 recorder
$32 8 GByte SDHC card at Frys
$175 for H2 recorder on amazon (DJ Tools)

I believe you need to be able to record in PCM. If you record in a compressed format, you are screwed regarding post processing. That is, if you record in mp3, then want to enhance the recording (filtering, etc), you need to convert to PCM, but the recording will be full of mp3 artifacts. Then if you want to put the file on the net, the audio quality will suffer when you compress it to mp3 again. Thus you need large capacity and the ability to record in PCM.

The unit has a line input.

Caveats:
1) No vox. It sounds like it has one, but it doesn't. You can remove the gaps via software, but the dead air does take up space on the SDHC card.
2) Microphone input very noise. Not a big deal, but if you plan to record with external microphone, you will need to use an external microphone amp. Note the amps for the 4 internal microphones are low noise.
3) Due to limits of fat32, files are limited to 2GBytes. If you try to record 8Gbytes in one setting, it will break the file up into 4 2Gbyte blocks.
4) Recording in mono does not save space on the card. It is just stereo in two mono channels.
5) Line output is noisy. Not a big deal since it is the digital data that is of concern.

Advantages:
1) AA powered
2) PCM
3) Line input recording is very clean.
4) Mac/PC compatible. Even works on Windows X64
5) For fun, the unit acts like a USB microphone. I've done SKYPE with it.
6) Large user base with cool hacks like make your own surround sound

files.

As for the Hitler quote, he is talking about the Communist methods which
he was blaming for the collapse of the previous German State. Get the
book and read the stuff previous to the quote. When he gets quoted,
people mysteriously forget who he is talking about. He also mentions the
media.

==========
All this was inspired by the principle--which is quite true in itself--that in the big lie there is always a certain force of credibility; because the broad masses of a nation are always more easily corrupted in the deeper strata of their emotional nature than consciously or voluntarily; and thus in the primitive simplicity of their minds they more readily fall victims to the big lie than the small lie, since they themselves often tell small lies in little matters but would be ashamed to resort to large-scale falsehoods. It would never come into their heads to fabricate colossal untruths, and they would not believe that others could have the impudence to distort the truth so infamously. Even though the facts which prove this to be so may be brought clearly to their minds, they will still doubt and waver and will continue to think that there may be some other explanation. For the grossly impudent lie always leaves traces behind it, even after it has been nailed down, a fact which is known to all expert liars in this world and to all who conspire together in the art of lying. These people know only too well how to use falsehood for the basest purposes.

Most stations consider C2C a place holder...a reason to keep the
transmitter on between billable dayparts.

The revenue produced by C2C is comparatively small, even in the majors.

At the network level, C2C sells advertising to those clients without
large budgets who are willing to run on a show at the kook fringe,
running after midnight. Often appealling to the same colloidal silver
advocates who listen to WBCQ. The revenue stream there, too, is
considerably less than a Rush or Hannity stream.

In that light, C2C is not going to get the same kind of scrutiny that a show running in a major daypart will benefit from. It will not benefit from the same kind of resources. And while Art Bell was/is a boob, the show was his...and he put his efforts into it with a zeal that would be unlikely for someone simply plugged into a slot after his departure. He had a vested interest in the show. Noory less so. After all this time, Noory should have put his own thumbprint on the show...ie remade the show in his own image. He hasn't. He, too, is just a place holder. Punnett sees the show as an opportunity to put his name and voice out on a national level. A vehicle for his own career. It's about him, not the show. Not the audience. Like most of the doofi doing brokered shows on shortwave. Or as Hal Turner did on the internet. Focus is on the host...not the audience and guests. 'Dig Me' Radio.

Punnett didn't last doing afternoons at WGN, either.

C2C is what it is. And it's not likely to get much better unless either Bell unretires for the third time, or Premiere finds someone willing to make that show his own.

Hello Billy ! I was a ham over 40 years ago but I let my license
lapse because was engaged in other projects, But now I am
over 73 years old and would like to just listen to the ham bands,
I can receive and transmit in CW and was trained in the Army as

a backup in case of emergency. My call signs were K0RZD in
the U.S. and DL4KZ in Germany.

Sounds good...the only thing that wasn't clear in your original post was
you specifically asking for an antenna to receive AND *transmit*. Had
you said then that you just wanted to listen, I wouldn't have commented.

Don't let being 73 hold you back...getting a license is a LOT easier
than it was 40 years ago. NO CW required at all, just answering some
questions -- and they have all the questions AND answers posted on the
web for free. With your past ham background, it should be pretty easy
for you to get your ticket. Refer to RHF's post on the local clubs in
your area; they should be able to get you squared away.

Good luck! and 73...

What would it matter, dipshit, whether he wished to transmit or not? Perhaps, unknown to you, he intended to get a new license. But, it's none of your damn business what he wants to do.

Fuckin' dumbass.

Please forgive Billy, he's retarded, and has not a clue about SWL'ing/DX'ing,
and even less of a clue regarding amateur radio.

Oh, sorry, I forgot...it's Friday night and you're drunk already.

And yes, it -is- the business of all of us if he wanted to bootleg, just
like it's the business of all of us if an old lady is getting mugged,
rather than saying "Leave it for the police".

Remember, try not to mix your pain pills and booze. You wouldn't want to
give your 'friends' here the pleasure of you accidentally offing
yourself. Try and keep that firewater under control, Chief.

A rather simple inspection of the message headers will show that the "dude"

But, what the hell, you seem to believe it so I do have a reasonable idea of

When you've been shot down over N. Vietnam and spent a few years as a POW, then open your fat mouth. Not that I like, or intend to vote for, McCain. In my view he's got it wrong on most of the policy issues. But that doesn't detract from his military service, and he compares pretty favorably with twats like you.

If your IQ were 80 points lower and you had a thick schlong in your mouth, I'd think you were MNMikew.

REMOVE CHILDREN FROM ROOM BEFORE VIEWING!

Gawd almighty! It took the world a decade to recover from seeing her in a bathing suit with her cottage cheese thighs, thick hips and bulging dimpled arse now these.

Which raises the question....why would you waste your time?

You dismiss him as irrelevant. You dismiss him as alcoholic.

And yet...you're the one who engages him.

Hmmmmm...

Kinda raises another question. Doesn't it.

Given your stated disdain for DXers, it is quite the curiosity that
you spend so much time arguing with them.

Like Steve...you dismiss them as irrelevant. You blame them for the
deterioration of their relationship with broadcasters...and yet you
regularly engage them.

Hmmmmmm...

A person in your position would seem to have better uses for his
time. Unless, like another poster here, who faded away about the time of
your appearance, your bickering here is fodder for some discussions
outside of the group.

Which then raises more significant questions.

difference.

Nothing on a news group is truly significant. It's backyard gossip over a

I used to listen regularly to that show when Art was running it. I just liked him, his approach, and his voice. Except for the last year or two when his life started falling apart you could tell that he really liked what he was doing. His usual approach was to be nonjudgmental toward his guests. For me this was a mix of fantasy, science fiction, and science. It was almost always interesting whatever it was about.

I used to listen to him on the ham band after the show sometimes where the topic would continue.

I find Noory and the others boring. They in general don't believe any of the guests and it become obvious in short order. This makes it very hard to suspend your beliefs in the story telling. Art seems to be the only one to understand this. The only other guy I liked as host was was Whitley Strieber. I wish he had gotten the show and kept the fantasy going like Art.

This is an important show unlike any other in that it exposes the shared unconscious mind of the populous. This is no small thing to have a heads up on what is in the background of most peoples minds.

Now it's just a boring show. There is no excitement about the topics. Noory runs the program like it's a new age exhibition.

What you conveniently ignore, is that fans don't turn on the
object of their fanaticism....they have to be run off.

Broadcasters were long disdainful of DXers before DXers were
turned off.

So, you have disdain for Dxers who have disdain for you because
you had disdain for them.

Yes, it's a big difference of no difference. The very persons for
whom you have disdain are the ones you spend so much time aguing with.

No, you do not get it. Debate, going back to the Greeks, was as much about
the enjoyment of the discussion as the content being discussed. There are
two parts... holding a point of view and enjoying the challenge of defending
it.

This "hatred" has to origins...

One is based in the decline of AM whereby most "DX hours" programming is
networked and there is little variety to hear among domestics.

The second is based on AM looking for a saviour, and placing some faith in
HD Radio to improve its declining fortunes.

The first makes late-night DX boring. The second makes it impossible. Both
are reasonable business decisions by AM stations, but DXers see them as
attacks.
>
> Broadcasters were long disdainful of DXers before DXers were turned

I would not say that. Interest in DX reports waned as the importance of
non-local coverage waned, while at the same time most non-Metro stations
used outside contract engineers who were not paid to answer reception
reports. Today, nearly nobody at a station will know what DX even is.

Yes, I do get it. It's sport. You don't actually discuss. You don't
actually discuss, because you don't actually listen. You don't actually
respond to someone else's comment.

You declare. You don't discuss.

And you would be in direct contradiction with yourself. You've stated repeatedly how the disinterest in DX reports predates even the days of CKLW.

Broadcasters had disdain for DXers long before DXers had disdain for Broadcasters.

-- What is the purpose of rec.radio.info?

The purpose or charter of rec.radio.info is to provide the Usenet
community with a resource for information, news, and facts about any and
all things radio.

All the other rec.radio groups are intended for discussions and general
chit chat about radio. Rec.radio.info will contain informational,
factual articles only. Follow-ups are redirected to an appropriate other
group, and further discussion (if any) will not take place in
rec.radio.info.
```

In order to ensure that rec.radio.info contains only appropriate articles, it was decided to create the group as a moderated newsgroup.

-- Why are messages almost always cross posted to rec.radio.info?

It provides a "tag" for each article to be assembled into a filtered presentation in rec.radio.info (even with cross-posting, only one message, with a unique Message-ID, is propagated across the net). This tag also facilitates a pre-existing method of dropping or canceling the articles locally within the discussion groups if you don't want to see them. This accommodates individuals who want to separate the bulletins from the discussions, discussions from the bulletins, as well as those who are adamant about not reading another newsgroup and wanted to see everything all in one basket.

With the total size of Usenet (in number of newsgroups and total traffic) doubling every year or so, this is no insignificant contribution to reducing information noise and chaos. Making the discussion groups a catch-all, and making extra newsgroups filters on that catch-all, is also the most realistic way to implement such a scheme (It's not intuitively obvious what the charter, contents, and general appropriate topics for each and every newsgroup are. Seeing FAQ's and charter/intro postings in the home newsgroup is beneficial for new readers).

By cross-posting one only is adding a few tens of bytes to each bulletin (to specify the extra group on the Newsgroups line), but are adding the capability for very powerful filtering features available on most news servers, listservers and readers. Your local news guru could probably explain these features in more detail.

In rn, for example, according to Leanne Phillips in her rn kill-file FAQ, add a line of the form:

/Newsgroups:.*[,]rec\.radio\.info/h:j

either in ~/News/KILL (if you don't want to see rec.radio.info articles anywhere) or ~/News/rec/radio/amateur/misc/KILL (if you don't want to see them just in rec.radio.amateur.misc). The latter method means your kill file will only be consulted during rec.radio.amateur.misc (and hence runs more efficiently), and will probably work for most people.

In nn, according to Bill Wohler in his nn FAQ, add a line of the form:

rec.radio.info:!s/:^

in ~/.nn/kill (if you don't want to see rec.radio.info articles anywhere), or put the following lines:

sequence
rec.radio.info
rec.radio.

at the end of ~/.nn/init in order to see all the rec.radio.info bulletins first, then read the remaining rec.radio.* without the

bulletins.

In slrn, according to the srln FAQ, the following scoring rule will | allow you to see rec.radio.info-crossposted bulletins, while still | filtering out most SPAM or "Velveeta" crossposted to more than 2 | newsgroups (as such articles usually do not contain a 'Followup-To:' | header): |

Score: -9999 |
Newsgroups: ,.*, |
~Followup-To: . |

More information about kill files may be obtained from Dave Fawthrop's Killfile FAQ at:

http://www.hyphenologist.co.uk/killfile/

-- What is a 'follow-up', and what does 'moderated' mean?

If you are new to Usenet and are not familiar with the terminology, you might want to read the general introductory articles found in the newsgroup news.announce.newusers. Doing so will make your life on the net much easier, and will probably save you from making silly beginner's mistakes.

If you think that at this moment you are reading an echo, a conference, or a bulletin board, I'd also strongly suggest a trip over to news.announce.newusers.

For the rest of this article, we will assume you have a basic knowledge of Usenet terminology and mechanics.

A moderated group means that any article that needs to be posted to the group has to be accepted by the moderator of the group. Since we need to ensure that followups to an article (discussion) do not show up in the rec.radio.info newsgroup, the `Followup-To:' header line contains a newsgroup that is appropriate for discussions about the specific article.

-- OK, so now I know what 'moderated' means. Tell me more.

Rec.radio.info is a moderated newsgroup, which means that all articles submitted to the group will have to be approved by the moderator first.

The current moderator of the group is the rec.radio.amateur.moderated Moderation Team. Submissions to rec.radio.info can be posted, or e-mailed to:

rec-radio-info@panix.com

Comments, criticisms, suggestions or questions about the group can be e-mailed to:

rec-radio-info-request@panix.com

But before you do so, please be sure to check out the "Posting Guidelines" article.

The influence of the moderator should be minimal and of an administrative nature, consisting chiefly of weeding out obviously inappropriate articles, while making sure correct headers etc. are used for the appropriate ones.

-- What type of material is considered inappropriate?

There are three broad categories of articles which will be rejected by the moderator:

1) Requests for information: rec.radio.info is strictly a one-way street. We receive information in our mailbox; we then post it to rec.radio.info. Requests for specific information belong in the normal discussion newsgroups. If your request gets answered, you might consider passing the answer on to rec.radio.info, though. Especially if you can edit it into a informational, rather than a discussion, format.

2) Obvious discussion articles, or articles that appear unsubstantiated.

3) Commercial stuff: a relatively unbiased test of a radio product would be accepted, but any hint of for-profit might be reason for rejection. For three reasons: This is not the purpose of the list, for-profit is a controversial topic, and this list may be passed onto Amateur Packet Radio (where for-profit is prohibited except under certain provisos).

rec.radio.swap may be more deserving of the posting in any matter.

Similarly, copyrighted material generally cannot be used. If it's TRULY worthwhile to the net, We would recommend obtaining permission from the copyright holder. Please note the source, and if permission was given. We reserve the right to make the final decision concerning appropriateness in all situations. In most cases, a brief summary of, or pointer to, the copyrighted information may be all we can allow.

-- I do not have access to news, how can I get the information posted to rec.radio.info?

Google has an excellent web interface to Usenet newsgroups. It is available at:

http://groups.google.com

It supports both reading and posting.

Another excellent web interface to at least the radio-related Usenet newsgroups is the RadioBanter site:

http://www.radiobanter.com

sponsored by the NewsgroupBanter project:

http://www.newsgroupbanter.com

It, too, supports both reading and posting.

-- Will the material appearing in rec.radio.info be archived somewhere?

Yes. See Google Groups and RadioBanter above.

Effectively this means that anything you post to rec.radio.info will be permanently stored, so your work will not be lost.

-- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as time critical.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires co-operation and goodwill to be beneficial to the community in the rec.radio hierarchy.

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

*** rec.radio.info - Posting Guidelines and Etiquette ***

Two introductory articles about rec.radio.info are posted to this group
and to rec.answers/news.answers every month. You are now reading the
second article, which explains how to submit something to
rec.radio.info, and which answers some Frequently Asked Questions about
the submission process. The first article is titled "Welcome to
rec.radio.info", and it might be a good idea to check it out as well.

-- How do I submit something to rec.radio.info?

Two possibilities. You can use your newsreading software to just post
the article to rec.radio.info, as you would do with any other
newsgroup. The difference is that the software recognizes the special
status of rec.radio.info as a moderated group, and will e-mail your
article to us, the moderation team, instead of posting it to the group.

Alternatively, you can mail your article directly to us at the following
address:

rec-radio-info@panix.com

Mailing us directly is probably (a wee bit) faster, but using the
transparency offered by the newsreading software is probably more
convenient.

If you have any questions, or wish to deal with some administrivia with
the moderation team, we suggest mailing to the following address:

rec-radio-info-request@panix.com

-- How soon will I see my article appear?

It depends on how busy we are. Your article reaches us as mail, we have
to read it first, give it the stamp of approval, and finally send it on
to the group. We will attempt to read and decide on all submissions
within 72 hours at the very least, though we will probably be able to
process submissions much faster in actual practice.
```

The site from which we moderate this newsgroup, "Public Access Internet and Unix, NYC" (Panix), is directly connected to the Internet, and articles posted at that site should appear at most major news sites, including Google Groups, the same day. The principal delay, therefore, will be the wait in the moderator's submission queue.

If you post a periodic article, and have shown to be trustworthy, we may allow you to post directly if the article is of a timely nature. See the section below on direct posting.

-- Should my article be in a specific format?

No. If it is not totally illegible, we will accept it, and if it does not have a correct subject-line we will correct it with your permission -- that's what a moderator is for.

However.

You could do us a big favor by making sure your article conforms to these simple requirements:

1) The article must present information, not discussion or requests, We will reject the article or require you to change the wording if it is worth it.
2) A good, descriptive Subject line.
3) Always mention what source you got the information from.
4) Don't forget to include a Followup-To header, at least if you don't want further discussion to automatically be forwarded to you, the poster, which is the default if the article is only posted to rec.radio.info.

As we said: if your article is appropriate we will post it even if you don't follow these guidelines, but then don't blame us for not processing it immediately. 'Perfect' articles we can send on with a couple of keystrokes. Stuff that needs minor editing is going to have to wait until we have time to do so.

Please do not waste both our and your time by posting requests, as this is an information only news group.

-- What about crossposting?

If you send something to rec.radio.info, just name any group you'd like to cross-post to in the Newsgroups field. Then, when we approve the article for rec.radio.info it will get automatically cross-posted to any other groups mentioned. This will also override the default Followup-To: poster, replacing it with the groups you cross posted to.

We would prefer if the group be cross-posted to the various discussion groups in the rec.radio.* hierarchy that are appropriate:

rec.radio.amateur.misc Amateur (ham) radio and related matters
rec.radio.amateur.packet Amateur Packet Radio discussions
rec.radio.amateur.policy Amateur Radio practices, rules, etc.
rec.radio.noncomm Non commercial radio discussions

rec.radio.shortwave International broadcasting on the 'HF' bands
rec.radio.cb Citizens Band (27 MHz) discussion
rec.radio.scanner Scanner discussions (unsupported group)

or in one of the moderated groups:

rec.radio.amateur.moderated Amateur radio practices, rules, etc.
rec.radio.broadcasting Discussion of *domestic* radio broadcasting

We will leave it up to the poster to decide which group(s) are appropriate, but reserve the right to add groups if we feel it has broader interest. We will consult with the poster first.

Notes on crossposting:

- rec.radio.broadcasting is also a moderated group. The rec.radio.broadcasting moderator prefers to review all articles himself before posting. Placing rec.radio.broadcasting before rec.radio.info on the Newsgroups line should accomplish this. We will typically abide by the rec.radio.broadcasting moderator's decision whether the article is appropriate for rec.radio.info.

- rec.radio.amateur.moderated is also a moderated group. As the rec.radio.amateur.moderated Moderation Team manages both rec.radio.amateur.moderated and rec.radio.info, we can manage crossposting and approvals for both newsgroups. The rec.radio.amateur.moderated group does not allow crossposting to other discussion newsgroups, whether moderated or unmoderated. However, we would like to manage rec.radio.info as consistently as possible with how it was done by previous moderators, including the grandfathering of existing regular postings. Therefore, the submitter can choose rec.radio.amateur.moderated or the other unmoderated rec.radio.amateur.* discussion newsgroups for crossposting, but not both.

- Any FAQ or informational posting approved by the rec.answers/news.answers moderation team that is also crossposted to any rec.radio.* newsgroup (besides just rec.radio.info) is also automatically pre-approved for rec.radio.info. See below for more information.

If you post to another moderated group, it may be better to make special arrangements with both moderators before posting by contacting us at our administrivia addresses.

In addition, cross-posts do not take up extra space; modern newsreaders can be configured to show you cross-posted articles only once anyway; not everybody reads rec.radio.info; and rec.radio.info was never meant to reduce the volume of the regular discussion newsgroups. But keep in mind that some of the mail gateways may filter out the informational postings (at request of the subscribers) to keep the load down.

You decide.

-- I have a regular posting with timely information, can I make arrangements to help speed up delivery by posting directly from my site?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as timely.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires cooperation and good will to be beneficial to the community in the rec.radio.* hierarchy.

If you are currently maintaining (or plan to maintain) a radio-related periodic information posting, you may wish to consider crossposting it to rec.answers/news.answers. Postings that are approved by the rec.answers/news.answers moderators for this treatment are automatically pre-approved for crossposting to rec.radio.info (as the news.answers requirements are far more rigorous than the requirements this newsgroup ever plans to use). For more information about this option, consult the appropriate information articles and posting guidelines in rec.answers/news.answers.

Realize also, that even if your post is not approved for rec.answers/news.answers, it can still be approved for rec.radio.info. The intention is not so much to get every last bit of radio-related information on rec.answers/news.answers, but rather to provide an alternative avenue of approval (as well as grandfather existing maintainers of radio-related information and spare them additional bureaucratic hurdles). Again, crossposting to either rec.radio.info or rec.answers/news.answers, both, or neither, is at the discretion of the poster (subject to the approval of the moderators). You decide what is most appropriate for your article.

Please remember that as an information maintainer, you are not alone. There are many others on the net who maintain and post periodic information postings, using various intermediate-to-advanced features of Usenet (usually via automated tools). Various degrees of technical support and general hand-holding are available from many Usenet veterans. Send us some E-mail describing your needs to our administrative address below, and we'll try to help, or at least refer you to the right knowledgeable individual(s).

-- And Follow-ups?

If the only newsgroup you have specified is rec.radio.info, then the Followup-To: field will always be set to poster. If you do not want this, you must supply a Followup-To line of your own, and we will honor that one, as long as it is a subset of the original Newsgroups line.

If you specify newsgroups to cross-post to, then the Followup-To field will be set to include all the cross-posted groups, excepting rec.radio.info itself. Again, if you do not wish this behavior, supply your own Followup-To line.

We maintain other standards on the various RFC-1036 (news transport) header lines. For example, if the article is appropriate for passing into the Packet Radio Information Network, we encapsulate the Packet Bulletin Identifier (BID) in the Message-ID: news header line indicating the machine of origin as the ampr.org domain:

Message-ID: <$opa.55.1994@ampr.org> |

where the Packet Radio BID, in this example, is `$OPA.55', and it was posted in the year 1994, because some of the Bid numbers are cycled yearly. Hopefully, this can be used as a key to re-introduce the articles for the Packet Radio network. Also, if the article is a repost of an already existing information article in the rec.radio heirarchy, we ensure that the References: header line is linked to that previously posted article. This also helps to tag articles, and may be used for additional filtering if needed.

Since the articles are archived, please use the Summary and Keywords header lines to help one search for your article.

-- Why have I received no reply from you?

We never reject anything in silence, and we make a point of it to answer all our mail. However, E-mail, like a brain cell, can and does get lost, every now and again.

So, if you send us something, and you don't see it appear it rec.radio.info, and you still have not heard from us in reply after say, five days, you can be pretty sure that either your mail never reached us, or that our answer has never reached you. In that case, please try again (We will filter out duplicates).

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

If I'm not wrong the Zen V has voice recording only, not line-in,
which will make it less than ideal for recording audio off the
receiver. The Creative Zen V Plus however features a line-in port.

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable
time here on RRS trying to educate the faux, the debutantes, and
those who tote..

Therefore, I've simply decided to give up RRS.

Goodbye, I sincerely hope that you all find your niche in the
world of SW.

==========

I ain't white, but unlike you, I dislike no one.

Fuckin' dumbass.

Wonder why.... could it be that the Canucky Niggah is timid, afraid...?

Sorry, I'm not a racist like you, Edweenie...

Damn, the Canucky Niggah didn't have a damn thing to say...

Something for your faux Hispanic cock sucking brain to think about, eh?

You dumb sand niggers (sorry, I categorize ya all this way) need to
understand that you need to get your collective shit together...

Yes, I am witty, and I am wise!

True, ain't it, little faux Hispanic BOY.. (Heavy emphasis on the BOY!)

I said it before, and I say it again... Vicente Fox
is a stinking piece of Mexican shit.

Stuff a taco in it, Ramon!

And don't forget SAMBLA, South American Man Boy Love Association.

Mouth wide open, ready to take a load.

After eating the taco's wouldn't they be capable of gassing themelves?

It is then my patriotic friend, you must reach in the closet,
place your hands upon the weapon, and blow the cock sucking,

bean blower back into Mary's arms....

They are mere asswipes, suitable for flushing.

How many American lives were affected by the
slant eyed shit throughout the entire war?

Dumbass Canucks, sure ain't Rolex wearin' respectable folk...!

Or better yet, go get yourself some IBO Cock!

Yeah, after all, you're the Queen of your drug addled world.

And that has exactly what to do with the fact that CanaDuh is a
Third World Country?

Canucks need to be castrated.

Shame? Sorry, I'm not a dumbass Canuck. Blow me, boy.

Hey, buttfuck boy... try to pay attention, you little piece of
non-listening excrement.

Actually VA facilities are quite good, but if you Canucky niggahs poke
around one might find a lot of things wrong.

Why are the retards mostly dumbass Canucks?

Run along little Canucky dweeb.

One of my nicknames, starting around 1975 or so has been 'Raoul'

Well, now you know them, and you know me, Karl Mauritania!

Obviously you're just a retard boy who failed as a corporate manager.

Did I say it was, shit for brains?

I thank the Great Spirit every day for the fact that I'm not white like
you.

Because you're a moron, Druggie!

Ace is doing ok!

They don't call me 'Ace' for nothing!

And you, just another retard on the short bus.

All of my DX is better than your DX no matter what I do.

You claim to be 'Cherokee'... I think you're just 'Wannabee'...

No need to do anything more productive than cash the checks,
invest the money, do some DX'ing, and rile up the
mentally ill Canucks!

Why is it that you queers always seem to **SIGH** a lot? (1)

LOLOLOLOLOLOL... what a damn dumb cunt you are!

Now get your homo ass working on that documentation, boy!

Give it a shot queer boys, I dare ya!

Cocksuckers such as your self.

Hit the road, 'tard.

Toss 'em all, especially the Canucks!

So, just why is it that you queers always seem to **SIGH** a lot? (2)

Now go suck on some sushi, you little miscreant.

I just asked you to have the cunt send me a letter, boy.

So, just why is it that you queers always seem to **SIGH** a lot? (3)

"I'm so obese I had to get the extra heavy duty plastic blow-up doll"

Let me sum up, you Canucks are assholes!

So, just why is it that you queers always seem to **SIGH** a lot? (4)

Hit the road, drug addled fool.

Shame on CanaDuh for killing thousands of people every day.

Be sure to tell the bitch to send me that letter, faggot!

get your bitch *daughter* to send me a letter

Inquiring minds want to know just why is it that you queers always seem to **SIGH** a lot? (5)

Have the bitch send me the letter!

Well, go tell your other cocksucking countrymen.

Hey, have the bitch send me a letter

I can show her mine, and she can show me yours?

Ain't gonna happen, ya got no air farce, ya got no ne vuy, va goy nuthitin?

If you think for a moment that they'll listen to a drunken dumbass Canuck you'd be sadly mistaken!

Have the bitch send me a f00kin letter!

You folk really think ya got balls?

Now run along to wherever it is you little debutantes run off to...

I'll be waiting for that letter from your *daughter*, asshole!

Oh yeah, tell me baby...

Hey, little pussy boy, we spell it "cunt" out here, just like I think I spelled it originally, boy.

Never touched the skanky,,,

If I don't get that letter, boy, then you and your *daughter* must both be drunk, eh?

Finally shut you up, eh boy?

Have the bitch send me a letter on whatever letterhead YOU might make up.

Ain't that just speshul! He's got to go find somewun to fake him a lettter.

Have the bitch send me a letter on her firms letterhead, boy.

Great, then get your bitch *daughter* to send me a letter on her firms letterhead within the next two weeks!

Have your *daughter* draw up a contract, BOY!

Hey, 'Edurado', have your *daughter* get in touch with me, amigo

Guess that shut the little boy up!

Stuff it up your prancing ass, 'Tardo!

I'm LMFAO, since I've busted the f00kin faggot!

You are after all a drug addled 'tard boy who obviously knows little about the SWL/DX hobby.

Go blow some IBO Cock, and leave the real radio hobbyists alone, OK?

Let the faggot boy prove it!

LMFAO at the f00kin faggot

Yes, I learn more and more with each passing day!

LMFAO at the pathological liar!

Lying 'tard boy, much like the other debutante, malcontent, faux boys who inhabit the lace we call RRS.

You, on the other hand are nothing more than a sorry little homosexual 'tard

Liar, liar, pantalunes on fire! (1)

New history will be made when we crush CanaDuh!

Kan you just imagining that, you little faggot Cannucky boy?

Anybody, even Bozo, is worth more than some dumbass, faggot, Canuck!

Get busy, boy!

But you can't prove it, retard boy!

I know you faggots have dreams

Blow it out your ass, you dumbass Canadian! You and the rest of your
dumbass countrymen, and women too!

You'd not be very happy if I returned, little bitch boy!

Go get some IBOCock, 'tard boy, and bring home a taste for yer mama.

If you'd like to call me, I'm here to help you until 0330 GMT at:

Go give your boyfriend a blow job!

Talk about misery, you're in f00kin CanaDuh, boy!

Poor little cocksucker just had it handed to him

Eh? You sum dumass Canucuy bithyboy...

As long as it screws you Canucks, I'm a happy camper!

That's because you're a fucking liar!

Cry me a f00kin river.

Awwwww... the poor whiny dumbass Canuck is back at it again today.

Huh... you be just another stupid white boy outta Cleveland...
I suggest you get together with your "significant other" and bump butt
with each other,

Because I hate White Boy Canucks who suck cock...

Best you shuffle down the alley! That's what your mama wanted!

Crazy Retarded Australian People?

"Even 2 cents is more than a totally worthless Canuck"

Funny how the US Govt. sent me over $50,000 last year

You can preDICK all you want, you fraudulent cock sucking,
pathologically lying old bastard boy!

Hey, dumbfuck Canuck, I was not asked to leave!

I don't use Chink stuff

I went and bought ammo... I still gots it case them tard boys such as
edweena gets stirred up.

And 10,000 rounds isn't a lot.

It was Russian ammo. I don't like the Chinese stuff.

Now where did I put that other case of ammo..

I don't use Chink ammo.

That's not Canuckian, boy!

Kiss my ass, pedant!

I'm LMFAO, Mr. Gay-Lick!

Obfuscate, you little prancer!

LMAO at the 'tard.

Thing is, you 'tards are pretty fixated upon one set of parameters.
That is after all why you are considered to be 'tards!

As always, your head is up your f00kin ass.

You fuckin' Liberal asswipes are always ready to give somebodys else's
goodies away...

And, hopefully, my dumbass cousin in Mill Valley will leave me her
Corvette.

Obviously, you leep your head up your f00kin ass all day long.

I don't 'fear' homos, oh faux one!

Liar, liar, pantalunes on fire! (2)

Apparently you are the 'bendover boy'....

Do you spit or swallow?

Oh, I certainly have, time after time.

At least I went farther than you!

Good lubricant for you and the boys?

It's what dxAce uses!

that's good enough for me!

One can never slide the BS by dxAce

Not as well as you, fudge pack.

Go for it, dumbass!

Oh come on... it's Fall forward and Spring back. Everyone knows that!

Hit the road, drug addled fool.

Hey, I love kickin' gay-lick ass!

Pretty much what I indicated to you a while back, you f00kin prancer.

The only thing you know about short wave is that that is what your
mother gave you when she sent your f00kin ass packin' outta Cleveland.

Screw the drug addled retards.

Nah, I only attack the messenger when he/she/it is
obviously drug addled.

So, beat the rush and get the hell off of RRS, you f00kin retard.

Well, in you, we have a drug addled retard in our midst.

Get over it, you fake Hispanic piece of excrement.

And when you do confront HD, you'll have Cocksucker Dave and
The Prancer Boys to thank for it.

Damn... I'm of mixed race ancestry myself, what ever should I do?

Next time we come over the pond once again to save your sorry ass's
we'll have to dismantle that stuff.

Heck, I bought 1000 shares of FSEAX the other day.

Don't do business with the Huntington Investment Company,
in particular a fellow named Joseph Klein.

Not at all, we are both Miami Indians. ya got a problem with that, boy?

Ya right, suck my dick...

Believe it, it's like a dream to be with you again...

Then hit the road, you drug addled retard.

Just like you wish that you worked for me, retard!

Proven time and time again, fudge pack.

Get it, retard?

Dey done unnerstannn that us nateev boyyys R real Mericans!

I sure he is.

Insert your Gay-Lick reply here, boy:

And yet another Liberal rant

Nah, he was fake little cock sucker like you!

Your pathological lying is an offense to me, and more than likely an
offense to God as well.

No medications here, cock sucker boy..

Stuff a watermelon up it

But that stuff isn't what dxAce uses!

Come on now, you being a nice Liberal, Carbon Footprint, Al Gore, Cock Sucking kinda Canuck Bastard..

I won R plantation up nord, dat dem dum ass Canuckys be oween us, ya be 'standin me?

CanaDuh is stupidity!

Stupid little pussy faggot!

Liar, liar, pantalunes on fire! (3)

Mr. Edweenie, the forces of Good are gonna come visit your sorry fake Hispanic White Boy Ass if you keep it up!

Pay attention, cock sucker...

LMFAO as I sit and look at my royalty cheques...

You've done this before, cock sucker...

LMFAO at yet another dumb friggin Canuck..

I know it may be hard, but as you withdraw, it will shrink away..

Oh damn, I guess we pissed another wanker off, Cuz..

I get my ride be fixed, I be cruisin to be givin ya da shake, yu be knowin, eh?

Try again, shithead.....

Dem Canucky boyz are dumaz rasissts..

We gone be sen u to sumplac bad boy... u be so bad weben the reel Canuckys won wan u.

Fookin bustards! Like Edweenie!

Best you wake up soon... fookin retard leetle beetch..

Fookin 'retard.

Indeed, I'm now at WAR with Canuckistan..

May the Great Spirit help the hapless bastards.

At any rate, I'd bet it beats the Canucky Third World state of care...

CanaDuh sucks...

Wanna go to war, shit head?

Think you might win? Think you got a chance?

If you don't... I'd keep my fookin Canucky mouth shut, boy...

Meanwhile, I plan for the Spring campaign, looking forward to the Blind River Massacre.

I collect stamps!

I really don't want to say this, my many shortwave friends, but
I find that I am giving up far to much of my increasingly valuable

those who tote..

Therefore, I've simply decided to give up RRS.

Telamon - Here are some Real Verifiable Numbers :

Here are 'my' Specific Google Numbers for Username
"RHF" [Radio High Frequency] Posting Activity
for each Year and Month-by-Month :
RHF's Google Numbers - http://tinyurl.com/2keyao
RHF's Posting and Replies Numbers -via- Google Groups
My 'Official' Google Numbers :
Grand Total 10,716 for 46 Months
Grand Average = 233 per Month
* 2007 Yearly Total = 3712
Average per Month = 309.3
Jan 151, Feb 118, Mar 135, Apr 273, May 240 Jun 213
Jul 408, Aug 483, Sep 568, Oct 396, Nov 370, Dec 357

I used to listen regularly to that show when Art
was running it. I just liked him, his approach,
and his voice. Except for the last year or two
when his life started falling apart you could tell
that he really liked what he was doing.

His usual approach was to be nonjudgmental
toward his guests. For me this was a mix of
fantasy, science fiction, and science. It was
almost always interesting whatever it was about.

I used to listen to him on the ham band after the
show sometimes where the topic would continue.

I find Noory and the others boring. They in general
don't believe any of the guests and it become
obvious in short order. This makes it very hard
to suspend your beliefs in the story telling.

Art seems to be the only one to understand this.

The only other guy I liked as host was was Whitley
Strieber. I wish he had gotten the show and kept
the fantasy going like Art.

This is an important show unlike any other in that
it exposes the shared unconscious mind of the
populous. This is no small thing to have a heads up
on what is in the background of most peoples minds.

Now it's just a boring show.

There is no excitement about the topics.

Noory runs the program like it's a new age exhibition.

He was a raging old queen and personally responsible for the stretching
of many a young man's arsehole on his adopted island of Sri Lanka. This
was also known as the Clarke Zone in the local gay bars. I went quite
off reading his stories when I discovered his predilections. Call me
old-fashioned but I prefer my authors to be red-blooded male

You really need to 'raise the bar' for yourself, in that case.

What's interesting is that you didn't bring your NAMBLA inquiry to
this group, but instead took it to a broacasting group. I guess you
knew that you wouldn't get a warm welcome here.

You don't think it's significant until you get yourself into trouble.
But of course then you can pull a fake ID out of your back pocket and
make a hasty retreat. And you call this "debate".

Again, you need to learn the difference between genuine debate and
sophistry. The latter is what you enjoy, and while it does involve
"defending" a position in some sense, it is not the same thing as
straight debate. Google some of the relevant terms and you should be
able to sort it out.

Hi, Thanks for the reply. I did some more searching and found that
the V and V Plus have line-in recording . The V Plus has a video

For the loud mouth mumbler, who know less than most here, Mac dumped
5 jets. 1 on the Forestall. and 1 into a low wire when he was showing
off for some friends. if you knew what you were talking about, Mac spent
less than 10 hours in combat. he got busted up when he landed in that
lake in N.VN. and, the NVA said he was at the Hilton 2 days, before
being moved to his own hooch with a girlfriend/ so called nurse.
good to be a Navy Brat. meanwhile, guys like Steve were doing their duty
in the Navy. and mumbler, where and when did you serve?

I as well. I put my flag up a bit ago in memory of your friends. I hope others might remember them as well as they go about their day.

2094. Redsun RP2100 Logs

I just got hold of this used Redsun a few days ago, but it's an interesting radio. Dual-conversion, very sensitive off the whip. Much better than an S350. Here's some logs:

13810 - 1450 UTC - Overcomer Ministry, via Juelich, Germany - (EE) - sio:242 - Brother Stair's unmistakeable voice in a frenzy of preaching. Weak, but Stair's voice really cuts through the threshold static. Bryant-KY- Mar 22

13720 - 1430 UTC - CRI, X'ian, China ? - (EE) - sio:232 - Man's voice rising above threshold in English w/ CRI's English URL address, and back below the noise. weak, but pretty clear for about a minute. Nothing listed here at this time from China. Not in // with 13675-Sackville, so I'm thinking a possible extension of CRI's English program from X'ian, usually w/ 1200 UTC s/off. Mike Bryant - KY, Mar 22

12080 - 1410 UTC - R Nederland, via Madagascar - (EE) - sio:444 - YL interviewing YL about why Western nations won't take a tougher stance against Chinese human rights abuses in Tibet. RN ID. Good, particularly given the transmitter site and target area - SE Asia. Longpath? - Mike Bryant - KY, Mar 22

7390 - 0425 - Channel Africa, Meyerton, South Africa - (French) - sio:353 - M w/ talk, many mentions of africa, ID by OM in French, musical bridge and ID again at :30. Good. Mike Bryant - KY, Mar 21

17640 - 1653 - BBC, via Meyerton, S Africa - (African vernacular) - sio:343 - 2 OM in animated, fast-paced discussion in African tribal language. Fair, but clear. -
Mike Bryant - KY, Mar 20

15620 - 1635 - VOA, via Briech, Morocco - (Somali) - sio:444 - M w/ world news. VOA bckgrnd mx. Language sounds like a cross between African tribal and Arabic. Good. Mike Bryant - KY, Mar 20

13620 - 1605 - R. Kuwait, Sulaibiyah, Kuwait - (AA) - sio:333 - M w/ prob ID, into MidEast music. Target area Europe. Fair-to-good, some splash from WYFR in Spanish on 13615. Mike Bryant - KY, Mar 20

13640 - 1550 - R. Tirana, Shijiak, Albania - (EE) - sio:444 - YL discussing Albanian economic development, "This is Tirana" ID. Very good. Mike Bryant - KY, Mar 20

9580 - 1215 - R. Australia, Shepparton, Australia - (EE) - sio:454 - OM interviewing Black US activist, Angela Davis, about race issues in the U.S. Very strong on 9580, //s 9590, 9475 and 6020 all weaker. -

Mike Bryant - KY, Mar 20

6290 - 6290 - ERTU, Abis, Egypt - (AA) - sio:353 - General Program w/ Koranic recitations. Good, all alone. -
Mike Bryant - KY, Mar 20

7440 - 0120 - R. Ukraine Int'l, Lviv, Ukraine - (EE) - sio:454 - OM & YL discussing Ukrainian cooperation with NATO and other European integration initiatives. Discussion of attempts to re-frame NATO and Russian coop. Strong, excellent quality broadcast. Mike Bryant - KY, Mar 20

5915 - 0105 UTC - Vatican Radio, Vatican City - (Tamil) - sio:322 - Man w/ news, Vatican ID. Signal fair, but degraded by adjacent channel splatter from WBOH on 5920. Signal targeted to South Asia. Mike Bryant - KY, Mar 20

15475 - 1825 UTC - Afrique Numero Un, Moyabi, Gabon - (EE) - sio:444 - Happy-sounding Afropop music, YL w/ ID in French. Coming in strong, this afternoon. Mike Bryant - KY, Mar 19

2095. Re: Digital audio recordings

So there you have it, anything from a $50 unheard of Chinese brand to
a $2000 top of the line Marantz professional recorder.

If you Google around a bit there are literally hundreds of digital mp3
recorders new and used available, so you have to choose carefully
based on some important criteria you must develop.

In my case I chose the $400 Edirol R-09 becasue:
1.] it is about the only one I could find that had replaceable
batteries (AA's), whereas the bulk of them have rechargeables which
doesn't suit me at my Seefontein powerless DXpedition site.
2.] It is totally solid state with no moving parts at all, important
in the very dusty African environment.
3.] Excellent well lit display with lots of info in the poor light of
a DXpedition site. So many of the others have tiny unlit displays that
are difficult to read in poor light conditions.
4.] Lovely easy to use controls - many of the offerings have tiny
unuseable buttons.
5.] Outstanding PC interface - you just plug it into your PC USB port
and can drag and drop your audio files as you wish. A great advantage.
6.] Come standard with a nifty little mains power supply (110/220v
AC).

Of course the Edirol R-09 is a bit of an overkill for most as it will
do high CD quality recordings of musical concerts etc. in WAV, so it
is important that you set yourself some criteria and then google
around to see the vast number of reviews and products available.

Yeah, I know you are envious that I had a business of my own at age 17 that
was a lot more exciting and productive than falling asleep from boredom in
high school... and later I had the luxury of studying what I wanted, not a
required curriculum, in college.

Of course, that has no truth to it al all. I was a good enough DXer to be
one of the founding members of the IRCA and a member of it's board in its
first year, as well as a member of the NRC from about 1958 to just a couple
of years ago.

No, I did not renew... a few ornery DXers who are against radio as a

OK, I wasn't aware that the V (non-Plus) had line-in. As for user
reviews, I doubt that you'll find much that deals with the line-in
capability. Most reviewers focus on music quality and interface. That
said, Creative make mostly good players. Here is a favourite DAP site

No, that would be most people. Debating is just the parsing of words to
win an argument, which each side puts out their best words to that
effect regardless of the truth of the matter. It exists just to make a
mindless win for lawyers and politicians whether they are right or
wrong. Most people don't care because it is useless information. The
truth of the matter will help and the BS will just lead you astray.

That's why most people hate you. You are just a BS spewer.

Graduating from high school would not have helped me at all and has never

Why? Strieber is the real deal and the others are just pretenders. The show is nothing more than a job for Noory and the rest. They don't do a very good job of being entertaining. Awkward is how I would describe their performance.

Art was very good at either being a believer or taking an impartial position. Strieber is a believer period. Noory and Punnett play the sceptic to any guest that is not a scientist on the program. They always seem to be worried about looking stupid to their audience and that makes them awkward. That's not going to work on this type of program. They raise the bar on their guests to be credible instead of going along with the tale being told. The unconscious does not make sense much of the time because it has a different information set than what the conscious mind works with. It amazes me that Noory has still not figured this out that you can't apply conscious logic to the majority of the unconscious mind material on the show. That guy is incompetent and boring for this reason.

I sniped sci.astro from the news group header. My guess is they don't think this thread belongs in that news group.

In the broadcast industry, where programming and content creation is more of an art than a learned science, the education level of a job applicant is seldom reviewed. Only in positions like accounting would some academic credentials or certifications be required. What is looked at is career achievements. What is not looked at is whether someone graduated from high school.

No moron. I snip so there is a logical progression to the thread. You
post a lot of extraneous crap. I don't. If I respond to a thread I snip
so that the last is what I responding too.

So by now a normal person would have figured out that they are not going
to determine what posts I respond too but for you it might take a few
more weeks.

It's all verifiable.

What strikes me as bizarre about you... er, that should be "exceedingly
bizarre" since nearly everything about you is somewhat bizarre... is your
repeated focus on high school diplomas. One is obviously not needed if a
person is intelligent and a bit of an autodidact. Since most classroom time
is wasted while the slowest learners are attended to, most high school
classes are boring and frustrating to those of some ability. Yet you seem to
wish all teens to be doomed to this experience, which dulls the mind and
stifles creativity... why is that?

Because you're a verifiable pathological liar?

This is what a lot of people say who failed to graduate from college.

Wait a minute...you said high school? Are you serious? You failed to
graduate from high school? That's not funny.

Maybe this is part of the problem with radio as an industry. It's
people aren't reasonably well-educated. It's probably time for it to
raise its standards and as it recruits sharper, more educated people
perhaps some of its problems can be solved.

This is what lots of people say who flunk. However, if they're
actually intelligent, they should have no trouble excelling in their
studies.

The most talented students don't allow themselves to be frustrated and
bored, and usually have no trouble pursuing studies at whatever rate
is best for them.

Nope, the headhunter firm of Joe Sullivan, Inc. came calling and offered me a VP position at a publicly traded company to run their broadcast division. Since I had gone to college because I was consulting and had lots of free time, this was no loss as I didn't have need for a degree... what I wanted was to give some structure to my knowledge of business and finance (radio management) and the social sciences such as psychology, sociology, cultural anthropology (radio programming, in other words) and math and statistics (research and ratings)... which I achieved. It also allowed me to learn business terminology in English, which I had little familiarity with.

Yeah, I was bored out of my gourd, and built a radio station instead.

As stated before, I quit because I started a business instead. School was so
boring that it was easier to read the text books the first week of school,
and then skip classes and only take the tests.

Nobody cares if you got a HS diploma or not. People care about what you
post to the news group, which is mostly crap with just a smidgen of
truth in a bid to make it believable.

Many of the best people in radio are not big on forma education, but you
find them to be excellent autodidacts. The people I find fault with in the
industry are those who have learned, generally in school, a rigid mindset
and are encumbered by rules on what works and does not work.

Since radio broadcasting is not a field where there is much to be learned in
college, intelligence and work experience is often better than specific
training.

No, that means you have nothing topical to post about so this is the result. Try not being a moron for once and post something about SW just for a change of pace.

We all know that you are pretty dumb and lack understanding of radio or physics but it does not take a lot of brain power to post about what you listened to today on SW and what you though about what you heard so give it a shot Billy boy.

I grew up in a multilingual home. My mother, who spent years in Europe,
spoke several languages, and my grandmother, daughter of the US ambassador
to Germany, spoke German to us so we would be exposed.

By age 13 or 14, I was listening mostly to Latin American radio and music,
and over the years had many years of French and 6 years of Latin. I was, in
fact, in a multicultural environment. At about age 6, I enjoyed flying a
Brazilian flag in front of the house because I had a vision of travelling
the Amazon.

I think that most of what you post is BS has been pretty obvious to all

Another fine story. You should be a Coast to Coast guest. On second
though you have better work on making your story more believable.

He built up a story. It took a great deal of fabricating to make up that
lie of a life story and now he has to maintain that lie. It's not
getting any easier for him.

You never explained what you did to have your mother throw you out of
the house. Where threatening violence upon some family member? Doing
drugs? Maybe it was cheating on those HS final exams and getting thrown
out of HS that was finally the last straw for your mom.

2180. Hillary Clinton Now Claims To Be Combat Veteran

Before dodging sniper fire in a mad dash to her car she probably took over the controls of the C-17 military transport plane, calmly taking evasive action lands the plane safely. But she's too modest to reveal that.

"I remember landing under sniper fire. There was supposed to be some kind of a greeting ceremony at the airport, but instead we just ran with our heads down to get into the vehicles to get to our base." --Hillary Clinton, speech at George Washington University, March 17, 2008.

Hillary Clinton has been regaling supporters on the campaign trail with hair-raising tales of a trip she made to Bosnia in March 1996. In her retelling, she was sent to places that her husband, President Clinton, could not go because they were "too dangerous." When her account was challenged by one of her traveling companions, the comedian Sinbad, she upped the ante and injected even more drama into the story. In a speech earlier this week, she talked about "landing under sniper fire" and running for safety with "our heads down."

There are numerous problems with Clinton's version of events. Story continued at http://blog.washingtonpost.com/fact-checker/2008/03/hillarys_balkan_adventures_par.html

The course of study is undoubtedly in the ASU records from '73 to '75, while
the position of VP is listed in the annual reports of Pueblo International,

... only because they had no alternative. I did. It was a lot more
challenging, rewarding and profitable to own and run a #1 radio station than
to take woodshop or algebra. By being an owner, I could make mistakes that
would cause an employee to be fired and learn how to fix them and not make
them again. As John Kluge said to a friend of mine, "Son, you don't learn
from your successes."

There is no reason to be bored in HS if there is something else you can do
that is of more value.

As mentioned before, my entire curriculum vitae can be verified. I can give
you a hundred names, ranging from the mayor of Guayaquil to the leading DJ
in Miami who worked for me, with me or were clients or such of my stations
in Ecuador; my website actually has multiple pictures of me from the
construction of the first station onward, as well as my cards, a verie

letter from a prominent NRC member, etc. In fact, several NRC members, the US delegate of the AIR, etc., visited me and saw my stations... folks such as Larry Godwin and John Hoogerheide of the NRC and Arch Madsden of Bonneville International..

That is pretty funny. I had always wanted to live in Latin America going back to pre-school years. Since I was bored with school, despite very high grades, the school advisor recommended a year in another country. That year turned into an internship at Organizaci&#65533;n Radio Centro in M&#65533;xico City (Check with Francisco Aguirre, Jr., CEO of GRC or Ramiro Garza Trevi&#65533;o, then PD of the group, both living and friends) and then another trip to Ecuador where I ended up buying a station license during my senior year of school and putting a station on the air (Check for Carlos Guarderas Barba, who now has an alarm company in Ecuador who sold me much of my technical parts and supplies, or Larry Cervone, retired former head of Gates Radio in IL who sold me the studio equipment of Betty Pino at WAMR in Miami who did free lance announcing for me from '65 to '67 or Herb Levin, former Manager of WQBA in Miami who helped me get work in PR whent he government went wild in Ecuador in 1970).

My mother was very proud of my accomplishments.

"Digital Audio Broadcasting Systems and Their Impact on the
Terrestrial Radio Broadcast Service"

15. We will not establish a deadline for radio stations to convert to
digital broadcasting. Stations may decide if, and when, they will
provide digital service to the public. Several reasons support this
decision. First, unlike television licensees, radio stations are under
no statutory mandate to convert to a digital format. Second, a hard
deadline is unnecessary given that DAB uses an in-band technology that
does not require the allocation of additional spectrum. Thus, the
spectrum reclamation needs that exist for DTV do not exist here.
Moreover, there is no evidence in the record that marketplace forces
cannot propel the DAB conversion forward, and effective markets tend
to provide better solutions than regulatory schemes.

16. iBiquity argues that in the early stages of the transition, the
Commission should favor and protect existing analog signals. It states
that this could be accomplished by limiting the power level and
bandwidth occupancy of the digital carriers in the hybrid mode. At
some point in the future, when the Commission determines there is
sufficient market penetration of digital receivers, iBiquity asserts
that the public interest will be best served by reversing this
presumption to favor digital operations. At that time, broadcasters
will no longer need to protect analog operations by limiting the
digital signal and stations should have the option to implement all-
digital broadcasts. We decline to adopt iBiquity's presumption policy
because it is too early in the DAB conversion process for us to
consider such a mechanism. We find that such a policy, if adopted now,

may have unknown and unintended consequences for a new technology that has yet to be accepted by the public or widely adopted by the broadcast industry.

http://www.epa.gov/fedrgstr/EPA-IMPACT/2007/August/Day-15/i15922.htm

Just like DAB in the UK, Canada, Australia, and Germany, HD Radio will fail from lack of consumer interest.

"In five years when every car has an iPod connection and you can
listen to anything you want, what is music radio going to do? Sean is
dead right on this point. Within five years we'll see diminishing
ratings on sound-alike music-oriented FM's. And radio will enter a new
age of non-music programming. Not necessarily talk. But not

facet of what will fast become a burgeoning trend towards non-music."

So how did you do this? You are 16, no HS diploma that you could have gotten early but instead you quit. Who would lend money to a 16 year old loser to built a radio station?

You need to mount it high up on a pole over your flat's roof. See my
review at:
http://www.dxing.info/equipment/dx1pro.dx
If you can't do that you are probably wasting your money.
Another excellent antenna more suited to flats is the:

Well, I glad to know I started some of the truly great Treads I am also glad
to know I didn't make any of the list for "over posting".

It's important to remember this group is for venting as well as talking

I down loaded the free videolan player. Nice app.

I think someone is testing a transmitter. It just sounds to me to be a
series of tones low to high and at one point a tone ramp.

If I'm awake at 2 AM I'll give it a listen.

I already stated the receiver was in AM mode using the 9.5Khz
bandwidth. No processing.

I've been uploading audio in ogg for years.
http://www.lazygranch.com/red_audio.htm
http://www.lazygranch.com/janet_audio.htm

While not much of an advantage for mono, ogg is very useful for stereo scanner recording. That is, you record two scanners in real time. MP3 will share the audio between channels, while ogg behaves as if each channel is discrete.

I try to use open source standards where possible, i.e. LAME or Ogg versus mp3. FLAC versus whatever crap Apple is pushing lately.

Hmm, your original post never arrived at Supernews.

Interesting; sounds like some sort of channel
calibration/equalization/training. What were your
receiver settings (mode, filter widths, processing)?

When I first began listening, my impression was of
out-of-band interference from a paging transmitter
or trunking public service repeater slowed _way_ down.

I worked in radio since I was 13, but had an investment account since I was
9. My father had been an investment banker and taught me; while some kids
got Lone Ranger masks and toy gunbelts, I got shares of stock and could
trade them and add to them. I traded stuff on the Toronto Exchang, mostly,
where $25 could buy 100 shares of Ajax Petroleum. At about 10, I got an
"imperfect" Chandler & Price printing press from my Grandfather (who was
president of the C&P) and sold business cards, letterheads, forms, QSL
cards, etc. By the time I was 17, I had enough money to build a station and
(barely) run it til it became profitable.

And I was fortunate to have a family that understood that I could always go
back to school, but never go back in time to seize a moment of opportunity.

This stupid Eduardo make believe stuff sure is boring.

Next up Eduardo and solves global cooling by venting more hot air.

You learned "business terminology". Congratulations. My neighbor just
read the users manual for his new dishwasher. We're throwing him a

It's the study and learning that earns the diploma that's important.
If you ever earn one yourself, you'll understand that.

Totally.

Jaime Nebot Velasco, mayor of Guayaquil. My partner in Radio Carrousel 660.
Betty Pino, 10 Am to 3 Pm WAMR Miami.
Add to that:
Herb Levin at WRHB Miami (former Manager, WQBA, Miami's #1 station, in the
60's and 70's)
Carlos Guarderas Barba at Quito's leading security firm
(http://www.cgbseguridad.com/quienes.php)
Gabriel Espinoza de los Monteros, Canal Uno, Quito, Ecuador.

Many NRC, NNRC, MWC, IRCA and NZDXA members got veries from me for tests I
did "off frequency" on HCRM1 (565 instead of 570) on multiple occasions.

Anyone who makes a phone call or two can find out.

Not really. She was always ahead of her times, including being the first
woman board chairperson of the Cleveland Metropolitan General Hospital
system as well as a supporter of the NAACP in the 60's, on the board of the
Visiting Nurse Association, the Cleveland Museum of Art, among many other
activities in the community.

She was so proud of the stations I created that, despite all her occupations
my mother on a weekly basis visited a local one-stop and got all the new
additions to the WIXY "Nifty Fifty" and sent them by registered mail to me
in Ecuador. Since American music was a major part of the format at my first
station, this was a key to success.

And, if you don't belive that I make the calls, ask Mr. Bryant! He'll 'verie' that I indeed make the calls.

No., I was never even working towards one. I had a lot of free time while
consulting in the Southwest and decided to take courses that would be of
benefit to me personally, not necesarily towards a degree. I've never even
been asked about my educational background the few times I have changed

All my business terminology and knowledge was in Spanish. Since I was in the
US, I thought it appropriate to learn the terms of the trade as well as the
differences in legal aspects of business. That was most useful, in fact.

Yeah more BS from the BS master. He could take advanced placement
classes, challenge courses taking the finals, or take college classes
while still in HS. I've done it. No reason he couldn't have done the
same.

You flunked out of school and then did the only natural thing: you
went to work. If you'd really been a good student, other, poor
students and even poor teachers could not have held you back. Your own
inherent curiosity and intellectual vigor would have propelled you
forward. Instead, you failed and went to work.

And that is fine. You have no reason to feel ashamed; but your
incessant breastbeating and your relentless search for approval
betrays a deep sense of shame.

Nobody is going to have paperwork for something that happened 40-some years
ago.

As an example, I have owned about 15 houses, give or take. I only have the
paperwork on the ones I currently own and one I sold in the last 3 years
(for taxes). I see no reason to carry anything else, and I'm sure that
applies to 99.9% of people. When it costs over $6000 to move just 12 miles
(as it cost me in '06) who would accumulate any more stuff than needed?

The references I gave know I owned and operated the stations; Mr. Guarderas'
father in law sold me my first frequency and transmitter, in fact... and the
license was in Mr. Guarderas' name until my company got the transfer.

That is why about $20 billion dollars was spent in radio advertising last

I learned that part by 7th or 8th grade. There was really nothing new to be
learned by being in school that I could not achieve by reading, experience
and hiring highly qualified staff that I could learn from.

Oh, not really. This is just something lots of people pretend after
they flunk out of school.

I guess they didn't go to very good schools or didn't work hard
enough. Pity.

There may not be much room for learning in radio broadcasting, but
there's plenty of room for it in life. Trust me on this one.

Gee. My combined phone bills are over $500 a month. So what?

You have not contacted a single one of these people, or they would have
called or e-mailed me to ask who the freak caller was.

Now ya got it---"that" you really are the Usenet BOZO.
Now you know why you should just shutup! "That" will work---GET 'ER DONE
Telimonkey!

You got a new name now--Congrats!

It's a pity you weren't intelligent and/or disciplined enough to
address your boredom. The better students cannot be held back in this
way, and it's incredible to watch them advance just fine through their
own effort and talent.

Perhaps instead of simply sitting there you should have applied
yourself. This is what the better students do.

If you made the calls just what the heck do we have here in this Eduardo character? He seems to know stuff but at the same time is totally full of crap.

Who is Mr. Bryant? I do not believe I know a single "Bryant" although I did know a Gene (Eugenio) Bryan from Caballero Hispanic Media in the past, but lost track of him. He tried to sign the stations I ran in PR up for the rep firm he managed.

Again, when I had the choice of building a radio station and taking some
entry level college course, which door do you think I selected? The fact
that the station became #1 in ratings certainly shows that I was able to do
it.

There is no reason to be bored in HS, period. But if you fail high school, you move on to whatever else is there.

The fact is that I had tired of school, and was much more interested in
business and radio. What would you say was more of an acheivement at age 18:
a piece of paper proving you graduated or owning the #1 station in a city of
nearly 1 million population against 41 competitors?

I'm proud of the fact that I was smart enough to know that continuing in
school would be frustrating and, probably, damaging. I slipped the noose and
did some rather significant things.

Fine, and I'm sure you've owned many other things besides. But why do
you so desperately need to prove this stuff to me or to anyone else?
You remind me of my neighbor's small son, who is insecure in himself

What a moron. You can barely put three sentences together. Now I know
why I should shut-up. Brilliant.

Radio is not in a pickle. It is simply, like light bulbs, a mature, slow
growth business now. And will be for many years to come. Of course, the
company I am with increased its revenue 13% in Q4 of 2007, so I am in a high
growth, pickle-less sector of radio.

Except for the fact that I did not flunk out. I quit school (Colegio

You have a very restricted mindset when you believe that learning can only
take place within the walls of academia. There is nothing stopping me from
reading Cervantes in the original or Joyce or picking up calculus if I want
to buy a couple of books.

It's a pity you can't be proud of them. Constantly chasing the
approval of others will only lead you down a long road of
disappointment. You have to learn to be proud of yourself. Then what
others think won't matter so much to you.

Do you think your relationship with your mother played some role in
shaping your sexual predilections? Did she know about this part of

Greetings,

FWIW, and for those who haven't enjoyed online remote controlled
receivers, try listening to the traffic on 3913 kHz on my
online receiver in No. MN and also on a rcvr in NC. The audio
is nearly is sync between the two right now at about 0200Z
and is 5X9.

That is my guess too. The signal itself doesn't sound "informative",
i.e. no modulation.

The allocation for that frequency isn't all that strict(fixed, mobile,
some aero), but given the power and consistency, it is fixed.

I did not even have to apply myself to get A's. I could even do one class'

preparatory schools, not public ones.

That explains nothing. I gave you names of living persons who knew me in

Yeah, but what is the point of generating this Web page and Usenet fabrication? What does he have to gain by doing this? There has to be a payoff somewhere.

I have known a few people so addicted to lying they can't stop. It's actually easier for them to lie about something then to tell the truth. Is what we have here some kind of psych job?

It would not have been frustrating had you been a better student. But
you failed and went work. No one could ask any more of you.

The series of tones and tone ramp could be a test of the transmitter
modulation capabilities.

It's fun. And an interesting study of folks like you.

Telamon obviously knows semiconductors and related issues, but has no idea
of how to interpret human behaviour.
You don't believe a person could prosper more by leaving a formal education
for an alternative of any kind.
dxAce is simply in denial. He's a racist, a xenophobe, and based on his
Saturday and Sunday rants and obscenities, a substance abuser.
Cahulin wears bras and injects some needed levity in these discussions.
IBOCisacrock makes conclusions based on wrong data almost 100% of the time.

It's like a sitcom, in fact.

No, building the first Top 40 station in South America is significant, as
well as building the first FM in the Bolivarian nations is, also. Both, by
the way, before I was 20. What were you doing then?

In my case, it was VP of Pueblo International, Inc. 1975 sales: $560

The emphasis you and mumbler have in diplomas is almost anal. Why is that?
Does it bother you that someone who did not need either kind of diploma has
done much better than you, who perhaps repeated a grade or two or had
trouble completing your classes?

I've personally known two people like this. You can't really deal with
them. The best thing to do is hold them at arms length so you don't get
get some of the wide shots when their comeuppance occurs.

And yet, you still have never owned a radio station.

And, you've never had an Amateur radio license, except in your fraudulent

Most people I know who are of my generation who worked for IBM or Xerox or any of a number of large corporations that transferred people with each promotion have had between a dozen and 18 houses over the length of their career. Most people I know in radio have had more.

My point was that most people do not store documents beyond the legal requirement.

I'll leave ya alone now Telamon!

I just wanted to make a point to you--just because you have a little radio
wisdom there doesn't really justify you be a shithead to everyone. You do
understand that being a shithead in your USENET WORLD is about all you seem
to have going don't you? What's your headstone gona say?---
"HERE LIES A USENET SHITHEAD".

Your crap does not benefit anyone in this newsgroup.

No, because radio advertising works. Outside of the few megamarkets, most
advertising is local direct... merchants who call a station's hometown their
hometown, too. The ratings they watch are the cash register receipts, not
Arbitron. And today, in local markets, there is no better and more effective
and efficient medium than radio.

There is no fabrication. dxAss claims to have proven lies, and all he can

as I said, no fabrication.

The only payoff is the amusement of seeing how far this could go.

Had you been a good student, your focus would not have been on grades
but on ideas. If you were bored in school, it's a reflection on you
and no one else.

You are missing the entire point. There was no challenge, no further useful learning to be achieved. There were real life experiences to be done, however. And, after about 10 years, I realized how fortunate I was to be able to go to a university and cherry pick the courses that truly benefited me and which I never would have taken had I gone to college out of HS.

There is no "Mr Bryant" that I know, so that one is a dud. Obviously, when
this round is over, we will see that the liar all along is you.

This is what people always say after they've flunked. It is so old hat. Be bitter, if you must, but at least be original.

The truth is that you posted a "source" in the person of "Mr Bryant" and
said you have contacted "people who matter."

Yet you have failed to identify who the mysterious Bryant is, have not named
the people who matter and are coming close to concluding this fun little

You're the one who's upset. You're the one who comes here in search of

Who is Mr. Bryant and who are the really important people you spent $190
talking to?

Hint: there were none.

Here is an e-mail from a little over a year ago from the son of the engineer
who build much of my equipment in Ecuador... ask yourself the question "why
would someone have built me transmitters, consoles and antennas if I did not
have radio stations?"

Learning the material was no big deal. Not particularly time consuming or
difficult. The beauty of math is something, again, that a classroom is not
required for.

If you want to feel the beauty of math, build your first AM directional
system, go nearly 200 miles from the transmitter site, and find the signal
strength is within 0.5 mV/m of your calculations. That is beautiful.

No, the amusement is in seeing how a racist like dxAss can convince all of

Looks to me like he wants to get paid. Did you ever pay him or did you
skip town? My guess is you skipped town.

You are missing the point. Local direct radio accounts run ads, see sales, and conclude radio works. A scam requires that there be a defect in the formula, and that someone is ripped off. In the case of radio advertising, when a local advertiser offers something people want, at a good price or with good service or delivery, and the service or merchandise sells, radio is proven to work.

I'm sure this is some funny inside bit of humor, but the fact remains I am
unfamiliar with the name, the reference or the little jokie you and dxAss
have.

Your end of the field may not be desperate, but you certainly seem to

When a student isn't properly prepared or properly disciplined, a

If you'd gone on to study more of mathematics, you'd have seen that
the rest of it is beautiful, too.

Looks like he is excited to find one of his father's closest friends again.
Galo sent me many pictures of the car I sponsored via Radio Musical which
his father drove in cross country motor racing events, dating back to about
1966. Look at http://www.davidgleason.com/1964-1970-E.htm for two pictures
of Galo's father with the cars I sponsored (clearly labeled) in what was a
very popular sport in Ecuador.

I studied, on my own, calculus and other areas of math. My interest was
enhanced when I saw what I could do with the knowledge and the excitement of
building things that I had designed.

I'd ask DxAce directly about Bryant. You can find out anything about
people on the Internet if you spend a few bucks.

This is why I have a handle and as much as I would like to tell you
about my work I won't do it. The kind of people I work for all do
background checks. If I used my real name malcontents could use it
against me. There was one twit that used my handle to post racists crap
in the news group from an open server a while back. Getting another job
is tough enough without explaining that sort of thing.

Go do a search on Bryant in this news group and you will find plenty.

A while back you were telling me what I could hear on my radio. You even
had the audacity to tell me the signal strength levels to support your
contention that there are three or less strongly received stations in
any market. All lies of course. Your fantasy world even extends to what
I get on my radio is an example of how perverse you are.

I would not trust an answer from confirmed racist dxAss were my life to
depend on it.

That I can understand, having had a false alter ego created by some moron
right on this ng. In most broadcast (not broadcast hobbyist) sites, many
more people use their real name and identity as we often find things to
share offline. I guess Usenet is a little different. Strangely, back in the
days of dialups and places like The Well, there was a modicum of respect,
courtesy and such even in the middle of an "idea flame war."

> Go do a search on Bryant in this news group and you will find plenty.

That does not answer the question of why dxAss thinks Bryant has confirmed
his mistaken views of my background.

What an egregious, frikking lie.

I never disputed that you could pick up things on your radio. I disputed that the things you found listenable were not, in fact, listened to by any of your thousands of neighbors in your ZIP Code, based on years and years and years of Arbitron data.

We spent a lot of time on this, but the fact is solidly proven that there is very little metro area in home or at work listening to any AM outside its 10 mV/m contour and to any FM in the same locations outside the 64 dbu contour. The closer you get to the minimum value, the less listening there is, and outside those contours there is very little if any listening.

You are a DXer. You apparently find weaker signals acceptable than the average listener, who has other standards. That's fine. But the fact remains that there are "borders" to useful radio reception by the general public and the stations you cited do not meet the strength and ease/comfort of reception that such listeners require.

That argument is actually fundamental to the item that started all of this: HD radio. Those who are DXers, whether club-member, militant seekers of the distant signal or just those looking for a hometown station or a different show, don't understand how truly few in number you are. So when HD creates problems in receiving distant catches, you don't understand that you are maybe the only person in a county of a million persons who even cares.

If you'd gone on to study additional areas of mathematics, I'm sure you'd have been even more impressed.

I might have been. However, at the distance and degree of isolation I was
from the US, I had little further opportunity since the areas that
contributed to my livelihood had been covered and I could build and maintain
my installations quite handily.

Yeah, the signals are to weak, which is BS. See you lied about this. The
Arbitron data does not show how strong signals are in my area. You are
making bad assumptions at the least or just plain lying.

See another lie. I'm not a Dx'er. I've told you this many times. Anybody
that reads this news group knows my listening preferences. I don't like
to listen to program material when the signal is noisy.

Yeah, right with so few stations only the ones down the street will not
be affected by IBOC. Many more that sound perfectly fine to anyone will
be destroyed by IBOC however. You lie and fabricate to frame the
argument so you can't lose it because it's "fun" to BS and fool the
sheep.

The Arbitron data shows that there is essentially no listening in the area.
Engineering software calculates the field strength in the ZIP code. If I had
your Census tract, I could do it down to that level.

The fact is that none of the stations, KOGO being one example, has enough
signal to garner listening and it, in fact, does not. When you see that with
one station, you can say that the programming might not have appeal in your
area. But when you see the same thing apply to every AM station, with those
over a certain level getting proportional listening and those under getting
none, the conclusion is verified. When you do this in dozens of US markets
over the last decade or so, the conclusion becomes fact.

Anyone who listens to stations outside their intended coverage areas is a
DXer. Today, in fact, you could call a DXer anyone who listens to stations
outside the community or metro area they live in.

Again, those ones outside a certain coverage are are not getting listening
no matter where you go in the US. So there is nearly no lost listening.

What sounds perfectly fine to you has been show to be vastly beyond the
signal intensity where normal people with everyday radios will listen.

I have a chance to buy a used Kenwood R-5000 receiver. I wanted to ask if anyone has an R-5000 and how they like it (both pros and cons). I was also thinking of either an Icom IC-R71 or Drake R8B as well. Any thoughts and advice would be greatly appreciated. Denny Dollahon.

Right, and that's another lie. You infer from data you supposedly use
professionally to dictate what signal levels I get, which according to
you are so weak nobody will listen to them but the truth is otherwise.
Since you fabricate the whole thing what does it matter, right?

Another lie. Plenty of stations have very good signal levels outside the made up contours you come up with. I gave you a list of stations 11 or 13 long but that does not matter. Your lies or errors trump any objective evidence.

That's right make up more lies to frame the argument.

See more lies. I look at this as objectively as possible but it makes no difference to you Mr. Lier.

The statistics are 'home made'.

a) You need a working setup of the PERL scripting language. It works on
almost everything, being pretty much platform independent.
You will probably use the Win32 variety.

http://tinyurl.com/23sa4x
http://www.perl.com/download.csp

b) The following Perl files:
http://linux.softpedia.com/get/System/Monitoring/GroupSTAT-13618.shtml

Those will tell you what modules you need to install. The 'getnews'
module downloads every posting in the newsgroup. Then, the 'groupstat'
module gets the information. You can vary the number of days to search.
All the files are free to use.

It can be a pain, but once it's set up you feel pretty good about
things. The sun shines brighter, food tastes better, the neighbours love
you even more and dxAce becomes a human being.

It's all true, except for that last item. It's an impossible occurrence .

It depends on what you want to do. If you are a program listener like me
then it would be the Drake. The other two radios do not have sync
detection, which is a great aid in AM broadcast reception.

The R5000 is an OK radio for SSB and I think likewise for the ICOM but I
have no experience with that radio.

All three radios need a good outdoor antenna and outboard speaker to
work and sound good so budget for those items.

It's kind of funny but listening to short wave does that for me. You

- Many of the best people in radio are not big on formal
- education, but you find them to be excellent autodidacts.

Autodidacticism / Autodidactism / Autodidact / Automath
http://en.wikipedia.org/wiki/Autodidacticism
Self-Education / Self-Directed Learning / Self-Taught Person

d'Eduardo - That goes for many "Creative" Endeavors based
on the the Individual's Sense {Feeling} of Sefl-Expression
and Awareness.

- The people I find fault with in the industry are those who
- have learned, generally in school, a rigid mindset and are
- encumbered by rules on what works and does not work.

d'Eduardo - So why then are you so devoted to your Sacred
Arbitron Numbers . . . ~ RHF

- Since radio broadcasting is not a field where there is
- much to be learned in college, intelligence and work
- experience is often better than specific training.

Applied Intelligence -coupled- with Work Experience
is about as "Specific a Training Regiment as One Gets.

Radio may be a Field where Hands-On Experienc gives
one a "Feel" for the Industry that Book-Learning can not

by itself Provide.

All of my DX is better than your DX no matter what I do.

You claim to be 'Cherokee'... I think you're just 'Wannabee'...

No need to do anything more productive than cash the checks,
invest the money, do some DX'ing, and rile up the
mentally ill Canucks!

Why is it that you queers always seem to **SIGH** a lot? (1)

LOLOLOLOLOLOL... what a damn dumb cunt you are!

Now get your homo ass working on that documentation, boy!

Give it a shot queer boys, I dare ya!Very tasty!

Cocksuckers such as your self.

Hit the road, 'tard.

Toss 'em all, especially the Canucks!

So, just why is it that you queers always seem to **SIGH** a lot? (2)

Now go suck on some sushi, you little miscreant.

I just asked you to have the cunt send me a letter, boy.

So, just why is it that you queers always seem to **SIGH** a lot? (3)

"I'm so obese I had to get the extra heavy duty plastic blow-up doll"

Let me sum up, you Canucks are assholes!

So, just why is it that you queers always seem to **SIGH** a lot? (4)

Hit the road, drug addled fool.

Shame on CanaDuh for killing thousands of people every day.

Be sure to tell the bitch to send me that letter, faggot!

get your bitch *daughter* to send me a letter

Inquiring minds want to know just why is it that you queers always
seem to **SIGH** a lot? (5)

Have the bitch send me the letter!

Well, go tell your other cocksucking countrymen.

Hey, have the bitch send me a letter

I can show her mine, and she can show me yours?

Have the bitch send me a f00kin letter!

You folk really think ya got balls?

Now run along to wherever it is you little debutantes run off to...

I'll be waiting for that letter from your *daughter*, asshole!

Oh yeah, tell me baby...

Hey, little pussy boy, we spell it "cunt" out here, just like I think I spelled it originally, boy.

Never touched the skanky,,,

If I don't get that letter, boy, then you and your *daughter* must both be drunk, eh?

Finally shut you up, eh boy?

Have the bitch send me a letter on whatever letterhead YOU might make up.

Ain't that just speshul! He's got to go find somewun to fake him a lettter.

Have the bitch send me a letter on her firms letterhead, boy.

Great, then get your bitch *daughter* to send me a letter on her firms letterhead within the next two weeks!

Have your *daughter* draw up a contract, BOY!

Hey, 'Edurado', have your *daughter* get in touch with me, amigo

Guess that shut the little boy up!

Stuff it up your prancing ass, 'Tardo!

I'm LMFAO, since I've busted the f00kin faggot!

You are after all a drug addled 'tard boy who obviously knows little about the SWL/DX hobby.

Go blow some IBO Cock, and leave the real radio hobbyists alone, OK?

Let the faggot boy prove it!

LMFAO at the f00kin faggot

Yes, I learn more and more with each passing day!

LMFAO at the pathological liar!

Lying 'tard boy, much like the other debutante, malcontent, faux boys who inhabit the lace we call RRS.

You, on the other hand are nothing more than a sorry little homosexual 'tard

Liar, liar, pantalunes on fire! (1)

New history will be made when we crush CanaDuh!

Kan you just imagining that, you little faggot Cannucky boy?

Anybody, even Bozo, is worth more than some dumbass, faggot, Canuck!

Get busy, boy!

But you can't prove it, retard boy!

I know you faggots have dreams

Blow it out your ass, you dumbass Canadian! You and the rest of your dumbass countrymen, and women too!

You'd not be very happy if I returned, little bitch boy!

Go get some IBOCock, 'tard boy, and bring home a taste for yer mama.

As long as it screws you Canucks, I'm a happy camper!

That's because you're a fucking liar!

Cry me a f00kin river.

Awwwww... the poor whiny dumbass Canuck is back at it again today.

Huh... you be just another stupid white boy outta Cleveland...
I suggest you get together with your "significant other" and bump butt with each other,

Because I hate White Boy Canucks who suck cock...

Best you shuffle down the alley! That's what your mama wanted!

Crazy Retarded Australian People?

"Even 2 cents is more than a totally worthless Canuck"

Funny how the US Govt. sent me over $50,000 last year

You can preDICK all you want, you fraudulent cock sucking, pathologically lying old bastard boy!

Hey, dumbfuck Canuck, I was not asked to leave!

I don't use Chink stuff

I went and bought ammo... I still gots it case them tard boys such as edweena gets stirred up.

And 10,000 rounds isn't a lot.

It was Russian ammo. I don't like the Chinese stuff.

Now where did I put that other case of ammo..

I don't use Chink ammo.

That's not Canuckian, boy!

Kiss my ass, pedant!

I'm LMFAO, Mr. Gay-Lick!

Obfuscate, you little prancer!

LMAO at the 'tard.

Thing is, you 'tards are pretty fixated upon one set of parameters. That is after all why you are considered to be 'tards!

As always, your head is up your f00kin ass.

You fuckin' Liberal asswipes are always ready to give somebodys else's goodies away...

And, hopefully, my dumbass cousin in Mill Valley will leave me her Corvette.

Obviously, you leep your head up your f00kin ass all day long.

I don't 'fear' homos, oh faux one!

Liar, liar, pantalunes on fire! (2)

Apparently you are the 'bendover boy'....

Do you spit or swallow?

Oh, I certainly have, time after time.

At least I went farther than you!

Good lubricant for you and the boys?

It's what dxAce uses!

that's good enough for me!

One can never slide the BS by dxAce

Not as well as you, fudge pack.

Go for it, dumbass!

Oh come on... it's Fall forward and Spring back. Everyone knows that!

Hit the road, drug addled fool.

Hey, I love kickin' gay-lick ass!

Pretty much what I indicated to you a while back, you f00kin prancer.

The only thing you know about short wave is that that is what your
mother gave you when she sent your f00kin ass packin' outta Cleveland.

Screw the drug addled retards.

Nah, I only attack the messenger when he/she/it is
obviously drug addled.

So, beat the rush and get the hell off of RRS, you f00kin retard.

Well, in you, we have a drug addled retard in our midst.

Get over it, you fake Hispanic piece of excrement.

And when you do confront HD, you'll have Cocksucker Dave and
The Prancer Boys to thank for it.

Damn... I'm of mixed race ancestry myself, what ever should I do?

Next time we come over the pond once again to save your sorry ass's
we'll have to dismantle that stuff.

Heck, I bought 1000 shares of FSEAX the other day.

Don't do business with the Huntington Investment Company,
in particular a fellow named Joseph Klein.

Not at all, we are both Miami Indians. ya got a problem with that, boy?

Ya right, suck my dick...

Believe it, it's like a dream to be with you again...

Very tasty!

Then hit the road, you drug addled retard.

Just like you wish that you worked for me, retard!

Proven time and time again, fudge pack.

Get it, retard?

Dey done unnerstannn that us nateev boyyys R real Mericans!

I sure he is.

Insert your Gay-Lick reply here, boy:

And yet another Liberal rant

Nah, he was fake little cock sucker like you!

Your pathological lying is an offense to me, and more than likely an offense to God as well.

No medications here, cock sucker boy..

Stuff a watermelon up it

But that stuff isn't what dxAce uses!

Come on now, you being a nice Liberal, Carbon Footprint, Al Gore, Cock Sucking kinda Canuck Bastard..

I won R plantation up nord, dat dem dum ass Canuckys be oween us, ya be 'standin me?

CanaDuh is stupidity!

Stupid little pussy faggot!

Liar, liar, pantalunes on fire! (3)

Mr. Edweenie, the forces of Good are gonna come visit your sorry fake Hispanic White Boy Ass if you keep it up!

Pay attention, cock sucker...

LMFAO as I sit and look at my royalty cheques...

You've done this before, cock sucker...

LMFAO at yet another dumb friggin Canuck..

I know it may be hard, but as you withdraw, it will shrink away..

I spit a wee bit of Guinness earlier!

Oh damn, I guess we pissed another wanker off, Cuz..

I get my ride be fixed, I be cruisin to be givin ya da shake, yu be knowin, eh?

Try again, shithead.....

Dem Canucky boyz are dumaz rasissts..

We gone be sen u to sumplac bad boy... u be so bad weben the reel Canuckys won wan u.

Fookin bustards! Like Edweenie!

Best you wake up soon... fookin retard leetle beetch..

Fookin 'retard.

Indeed, I'm now at WAR with Canuckistan..

May the Great Spirit help the hapless bastards.

At any rate, I'd bet it beats the Canucky Third World state of care...

CanaDuh sucks...

Wanna go to war, shit head?

Think you might win? Think you got a chance?

If you don't... I'd keep my fookin Canucky mouth shut, boy...

Meanwhile, I plan for the Spring campaign, looking forward to the
Blind River Massacre.

We have been over this before, but here it is again.

We take indivisual stations, and we use Arbitron's MapMaker(tm) program and have it plot the diary mentions (mention is the term of the trade for a single entry indicating listening to a station in a single diary representing one person) for at work and at home listening. Car listening, which is the lesser of the three locations, is not identifiable by location and excluded. This can be done in the Arbitron software down to the ZIP Code level. We then superimpose over the map a set of contours... let's say 25 mV/m, and then 20, 15., 10, 5, 2.5 and 1 mV/M per FCC data, for the station.

We see within which of the contours there is listening, and between which of them the listening ceases to be significant. We do this over for every AM in a market. Then we do it for previous ratings periods, with special attention to daytime vs. night by season

After we have done this for multiple significant stations in a number of different stations, we see that in the daytime, anywhere from 90% to 95% of listening on average occurs inside the 10 mV/m contour of AMs. At night, we have to realize some stations have very high interference, so we have to look at the interference free contour of some stations. In addition, AM's have such low listening, as a class, at night, that very often there is little data in any contour for a station... but it appears that an even stronger signal is needed to garner listenership at night than by day.

Since such a project covers many formats in many markets on all kinds of technical facilities. When the result is so uniformly indicitive of the statement, "there is essentially no local listening outside the 10 mV/M contour of any AM that we can conclude that this is a fact for in home and at work AM listening.

The contours come right out of FCC data, taking into account ground condutivity, etc. There is no presumption, just FCC data that is the basis for each station's licenced operation.

Yes, but they do not have 10 mV/m signals in the ZIP you gave me, and, coincidentally, have no listening either.

Your standard for "good signal level" is not the one 99% or more of listeners use. Quite simply, the statoins you mentioned do not have the necessary signal level to be listenable based on hundereds of thousands of diaries over the last 10 years. Listenability requires a set signal threshold... listening requires both signal strength and desirable programming. For this reason, many stations over many years over many markets were analyzed.

If the data over 10 years and over 15 sample markets, including peripheral markets as well, shows that there is essentially no listening outside the 10 mv/m contour today, then there is no lost listening in fringe areas and there is no lie in this as such listening does not exist.

If you have hundreds of AM stations in many markets in over a decade of audience ratings in over 40 surveys and you find essentially no listening outside a particular contour, and all the listening inside it, then you can say that there is essentially no listening outside the 10 mV/m contour. This is irrespective if the signal is there at a lesser level, because millions of listeners have indicated that such a level is not appealing since the don't listen.

This is sort of like a batter who consistently hits just inside the outfield, sometimes hits in the middle of the outfield and never hits into the far outfield. Saying, then, that for all practical purposes, this batter will essentially never hit a home run is verified by analyzing all his previous hits; a homer would be a freak occurrence. Similarly, any AM listening by metro area station outside the 10 is abnormal and statistically not predictable since usually all the listening happens inside the contour.

That is good to know. I will immediately tell our HR department that I have acquired a troll, and give them Steve's name and address and phone; they are used to such occurrences as most of our talent acquires trolls at some time or another.

When I was programming our talk station in LA, I would periodically acquire these critters from the audience... disgruntled listeners who disagreed with a host's opinions or our use of the language or something even less fathomable. Some would call the station manager, some would even call the corporate offices or write to the newspapers. I really enjoyed this, since the complaints to a supposed higher level generally had enough data in them for one of our host to call the complainer on the air and grill them, which made for really entertaining radio and put the troll in its place.

- Similarly, any AM listening by metro area station outside
- the 10 is abnormal and statistically not predictable since

d'Eduardo - Then It Ain't Science : It's a Number's Game :
crunch, Crunch. CRUNCH DA NUMBERS !

- usually all the listening happens inside the contour.

d'Eduardo - 'usually' Meaning It Ain't "Perfect" [.]

d'Eduardo - Here is something to think about :

1 - Even -if- you Numbers were "Perfect" and they are not.

3-Sigma Limits would give you 9973 Radio Listeners
within the 10 mv/m Signal Contour that are Receiving
a good Radio Signal with Excellent Audio 24/7.
=BUT= That also equally implies that there are 27
Radio Listeners 'out-side' the 10 mv/m Contour
{Distant DX'ers} that are each Receiving a good
Radio Signal with very Excellent Audio 24/7.

Telamon is most like one of those 27 'unique' Individuals.

2 - Now -if- Your Numbers are way-less-than Perfect;
which mostlikely they are.

2-Sigma Limits would give you 9545 Radio Listeners
within the 10 mv/m Signal Contour that are Receiving
a good Radio Signal with Excellent Audio 24/7.
=BUT= That also equally implies that there are then
455 Radio Listeners 'out-side' the 10 mv/m Contour
{Distant DX'ers} that are each Receiving a good
Radio Signal with very Excellent Audio 24/7.

The number of Telamons just got a whole lot bigger.

3 - The truth is that near one or two is what you
are interest in as a Commercial Radio Broadcaster.

The 9973 and 9545 "Local" Radio Listeners are a
Commodity that you can Sell to Local Advertiser
-and- the 27 and 455 "Distant" Radio Listeners are
a Commodity that You can NOT Sell to Local Radio

Advertisers because they are Distant {DXers} and
Not within the Advertiser's Selling {Buy} Zone.

Telamon and the rest of US here on Rec.Radio.Shortwave
are Listening to the Radio 24/7 -but- We are a Non-Factor
in Determining your Radio Station's Revenue Stream :
Therefore We Don't Count in Your Number's Game [.]

d'Eduardo You Are A Professional Commercial Radio
Broadcaster 'type' of Person.

While "We" Are Simple Distant Radio Listeners :
Who You Can Not Sell As A Commodity to Advertisers.

Plus You have another Radio Station up-the-road that
is Selling another different Local Advertiser all the Radio
Listeners in that Adjacent Area's 10 mv/m Contour.

The 10 mv/m Contour is good for the Local Advertising
Business Model used by Commercial Radio Stations
and why Owning Multiple [XXX] Radio Stations is much
more Profitable then owning One (1) Super Radio Station.

For Mass Media Corporations that own hundreds of
Commercial Radio Stations : The Selling Advertising
beyond the 10 mv/m Contour is : BAD FOR BUSINESS.

as always i remain someone who simply likes
listening to the 'free' over-the-air am/fm radio ~ RHF

Mike [M II],

OK so looking at your Numbers for :

Top 25 Prolific Posters: Posts / Posts per Day / Percent Share
==========

1. RHF.....: 508 16.9 16.5%
508 x ~33% = 168 'Pong' {Troll} Rely Messages by RHF
That is 5.6 Messages per Day about a 5.4% Reduction
in the Message Traffic Noise Level.

2. Telamon.....: 318 10.6 10.3%
318 x ~67% = 213 'Ping' {Trill} Attack Messages by Telamon
That is 7.1 Messages per Day about a 6.9% Reduction
in the Message Traffic Noise Level.

Combined Numbers : 213 Pings + 168 Pongs = 381 Ping-Pong
Game Messages between Telamon and Me {RHF}.
That adds up to 12.7 Messages per Day about a 12.3%
Reduction in the Message Traffic Noise Level.

All that Needless {Extra} Message Noise started when Telamon
begain his 'Ping' {Trill} Attack Messages directed at Me {RHF}.

and it all could end when telamon stops his
'ping' {trill} attack messages directed at me ~ RHF

M...Sushi,

Tuned 2750 kHz @ 0:749~07:52 UTC

Sounds like Garbled Voice in AM

LSB sound was weaker.

USB almost could understand the {Male?} Voice.

Tuned up and down the Band 1000 Hz in
both AM and USB with no better results.

I read a report recently that indicated that most or all of the PNG stations
that are currently on SW will be leaving the air by 2015.

Like anything else, that may or not be the actual case. But, I would certainly
try to hear those that are left before they are gone.

I currently have 'at least' 20 of the PNG stations QSL'd (veried, for those in Glendale).

Denny, you may want to join the yahoo R5K group before you buy.
it's a great radio, but has age trouble. the read-out can go
south on some. i have one here wit all the bells and such. i
enjoy it sometimes. it's a great broadcast rig, not so much
a DXer radio. i would go with the Drake, if you want a do-it
all receiver. the R8B is a great workhorse, that won't cost
you an arm and a leg for repairs. myself, before i buy a used
radio, i read the yahoo group. one of the best places for info
on the web. YMMV.

Had one for a few years. Nice audio. The stock 6 kHz filter had to be replaced due to poor shape factor. As you say, they apparently suffer with age, keypad problems are one of them.

Well, that's a pretty broad and indefensible statement, isn't it? There could be many reasons you are bored in HS; just a few that come to mind are:

a) poor teacher(s)
b) an average student in a class full of dummies or hooligans
c) a particularly bright student in a class full of average students

So, there are three of many reasons why someone -could- be bored in HS, period.

That would imply you are no longer insulting, denigrating or otherwise hurting your fellow human beings.

I'd like to believe that to be true, but as your behavior in the past shows, it's very unlikely. I hope you prove me wrong.

I get some weird characters in your posting. Is that your character
encoding or mine? I use mono spaced fonts with ISO-8859-1 default.

Didn't you 'claim' to have 'moved' to Mexico at the age of 13? That woould be
1959 or 1960.

And he wonders why DXers don't like him.

Broadcasters fired the first shot, in dismissing DXers.

Even demonstrating this thinking in a previous post by saying:

> Interest in DX reports waned as the importance of
> non-local coverage waned, while at the same time most non-Metro stations
> used outside contract engineers who were not paid to answer reception
> reports. Today, nearly nobody at a station will know what DX even is.

Again, DXers are fans. Fans don't turn on you. You have to run them off.

Broadcasters fired the first shot, here.

And the repeating of the corporate line, as clinical number above,
only reinforces this.

I don't believe he's so stupid as to not see this. But I do believe
he's so invested in his position that he can't acknowledge it.

Which only underscores the accusation made some months ago that he's
a shill.

Sorry, I'm not a racist like you, Edweenie...

Damn, the Canucky Niggah didn't have a damn thing to say...

Something for your faux Hispanic cock sucking brain to think about, eh?

Blow it out yer ass, Canuck!

All your talk comes from within the contours of your ass.

Get over it, you fake Hispanic piece of excrement.

And when you do confront HD, you'll have Cocksucker Dave and
The Prancer Boys to thank for it.

Damn... I'm of mixed race ancestry myself, what ever should I do?

Next time we come over the pond once again to save your sorry ass's
we'll have to dismantle that stuff.

Heck, I bought 1000 shares of FSEAX the other day.

Don't do business with the Huntington Investment Company,
in particular a fellow named Joseph Klein.

Not at all, we are both Miami Indians. ya got a problem with that, boy?

Ya right, suck my dick...

Believe it, it's like a dream to be with you again...

Very tasty!

Then hit the road, you drug addled retard.

Just like you wish that you worked for me, retard!

Proven time and time again, fudge pack.

Get it, retard?

Dey done unnerstannn that us nateev boyyys R real Mericans!

I sure he is.

Insert your Gay-Lick reply here, boy:

Dem Canucky boyz are dumaz rasissts..

We gone be sen u to sumplac bad boy... u be so bad weben the reel Canuckys won wan u.

Fookin bustards! Like Edweenie!

Best you wake up soon... fookin retard leetle beetch..

Fookin 'retard.

Indeed, I'm now at WAR with Canuckistan..

May the Great Spirit help the hapless bastards.

At any rate, I'd bet it beats the Canucky Third World state of care...

CanaDuh sucks...

Wanna go to war, shit head?

Think you might win? Think you got a chance?

If you don't... I'd keep my fookin Canucky mouth shut, boy...

Meanwhile, I plan for the Spring campaign, looking forward to the

UNIDENTIFIED. Re DXLD 8-034: Further monitoring of unID carrier on 6024.94 leads me to believe this must be FRCN Enugu rather than Amanecer. Heard on several occasions lately: March 18 2300 to 2308 s/off, March 21 1835 to 2113 tune-out, March 23 0450 to 0459 when blocked by Algiers Holy Qur`an service, but only with sporadic snatches of very low audio. Have been in contact about this with Mauno Ritola who mentions that this is being heard in southern Portugal with definite English but no clear ID as yet. Had previously logged them tentatively on Dec 26 last year, so if this is indeed Enugu, must have been reactivated several months ago already? By the way, what is happening at co-channel Budapest? The only transmission I can currently hear on 6025 is from 1700 to 1800. Is this a further permanent cut back? 73, (Martien Groot, Schoorl, Netherlands, March 23, DX LISTENING DIGEST, Glenn Hauser)

This will interest country hunters if indeed on as it counts as Biafra on the NASWA Country List.

Another racist comment from dxAss about people he does not know. Of course
our HR department deals mostly with Hispanics... we are a large company
serving the Hispanic population of the US... but you demean the company and
its constituency just because you hate, as often shown, Hispanics.

"Race" is defined very broadly in the dictionary to also be a way of
referring to classes rather than races of people. And "racist" covers race
hatred, ethnic hatred and cultural hatred.

There's no shortage of reasons why someone *could* be bored in HS or
anywhere else. The point is that one shouldn't allow oneself to be
bored and if you are bored it's probably your own fault.

The site also cites After Action Reports in it's documentation

Yes, as far as I know he did indeed write the reports himself. Never proven otherwise. And, as I stated earlier, no one has ever positively refuted any of the swifties claims.

How dare you challenge Dave the expert in U.S. Naval affairs! He
thinks the U.S.S. Forrestal is spelled, well in "Sparky's" own words:

"What about when he set fire to the flight deck of the Forestall?".

Umm...oh okay whatever you say Davey.

that has been posting the DX Ace has been out Shooting at
Mexicans. Don't recall DX Ace ever say that he Enjoys
Shooting Mexicans.

-iirc- DX Ace Clowns "You" for using the name "Eduardo" for
what he considers a False Claim to being a Hispanic {I Don't}.

-but- I don't recall DX Ace preaching an Hate toward Mexicans
and Hispanics : At the Same Level of Hate that many of the
Canadian Posters her Preach HATE Toward the USA and
Americans.

At least my arguments are about radio. Your posts are just dismissive

These trolls were not ordinary complainers... thery were nut cases of the
first water and there was considerable entertainment value in their
behaviour. In addtion to complaining, they were rude or obscene or
personally offensive to myself and my staff.

One was a character who thought himself the protector of the Spanish
language, and who objected to the use of the term "troca" for "pickup truck"
instead of the traditional "camioneta" which nobody uses on the street. The
guy would write 7 and 8 page letters about language, failing to see that
word usage is dynamic.

We ambushed him by having two university professors who explained how
language changes. It made for informative radio, with the entertainment
value of a nutcase who wanted to roll language usage back 100 years.
>
> You pit your whole organization against one guy in order to collect

That is entirely what talk radio is about... it's a sport, not an
intellectual excercise. The whole idea is to do the same thing as the WWF
does: provide an entertainment. Ask any major market talk programmer... or
any well rated host, from Limbaugh to Hannity.

>
> You really are a scum-bag.

You really don't get the fact that talk radio is entertainment, not news.

The term "racist" defines more than just "race" based hatred.

Oxford American Dictionary
racism

n noun

1 the belief that each race or ethnic group possesses specific
characteristics, abilities, or qualities that distinguish it as inferior or
superior to another such group.

2 discrimination against or antagonism towards other races or ethnic groups
based on such a belief.

Similarly, "Hispanic" is not a race because an Hispanic can be of any
race... Black, Indigenous, White, Asian and any mix of the four races.
Hispanic is ALL races.

Telamon - For Me - That would have been Radio Nikkei on 3925 kHz at
S-9 +20 dB with Very Good Audio {Music}.

FWIW - WWV on 2500 kHz and 5000 kHz were only
at S9 with Good Audio.

Radio Nikkie is usually an Easy Late Night / Earily Morning

Just because it is entertainment does not mean it can't be informative.

I don't know where your rules of engagement come from but pitting a team of people against one guy is not what I would consider "sporting" or "fun." That is just a setup.

Yeah, the music was good and unusual for a domestic Japanese station. I had them at S9 and that was better than WWV on 2.5MHz as you said but WWV on 5MHz was much stronger for me.

The same show put the brakes on closed door, no-bit purchasing for some LA City parks and recreation events. You can't be sedrious and "informative" every day.

On the other hand, baiting the guy who called all the way to the FCC about us calling pickups "trocas," called our receptionist of 15 years an illiterate hooker, etc., etc. was definitely fair game.

I suppose I have not conveyed what a nasty piece of work the guy was. We got this sort with some frequency; when they would not listen to a reasoned explanation, they became sport and the hunting season was always on. We never turned away a complaint call and always listened up to a point where the caller swore or engaged in name calling or racist or religious or ethnic insults, at which point we hung up. Most stations do not do that, by the way... they send complaints to voice mail.

Hispanic is not _a_ race, it is all races and mixes. Totally different... it
is an inclusive rather than an exclusionary term.

However, "racism" or "racist" in contemporary usage (see the cited
dictionary, the Oxford American Dictionary) includes things beyond race
including nationality, ethnicity and culture.

You are confusing the definition of a class (Hispanics) with the definition
of a trait, racism, or its proponent, a racist. dxAss is a racist.

It is up to consumers to determine the fate of HD Radio, and it is
failing from lack of consumer interest:

Well, you should listen to Sean Hannity sometime. He puts them the voice
mail on the air with bleeps for the expletives of course.

What exactly do you mean by "the first water"?

In addtion to complaining, they were rude or obscene or

Oh, I see. It's not as though they were just regular old NAMBLA
advocates like you, who of course wouldn't offend any sensible
person.

There is very little consensus among linguists regarding language
change, especially where the semantics of the language and not merely
the syntax is at issue. So, I suspect the "joke" was on you, though it
doesn't sound like much of a joke.

Nice to hear you're out there wanting to provide a worthwhile
community service.

Get that phone number for NAMBLA yet?

"Entertainment" just isn't entertaining anymore.

You criticize educational levels of others, yet do not know one of the
finest English idiomatic expressions?

The phrase means "of the finest quality. for example, "That was a play of
the first water . The idiom refers to a grading system for diamonds where it
signifies the greatest purity and perfection of a diamond's complexion,
which ought to be that of the clearest drop of water.

You use of the posts of an imposter are getting tiring. I certainly can not
be offended by something that I have nothing to do with, either... so, if it
really amuses you, keep it up. Water off a ducks back, eh? (Assuming you are

There is plenty of consensus in Spanish, since there is a centralized body
that looks into new usages. Of course, you would not know that. Now you do.

The dictionary simply supports common usage. Where "hate crimes" are described as "racially motivated" we often see anti-Semitic acts described as racist, yet there is now Jewish race in the sciences; in common usage, there is gray area between race and ethnicity and even religion that lends the term "racism" the ability to cover all those areas where people find ways to hate each other.

It was more the context of use that I was inquiring about, but no
matter. If you're really that desperate for SOME kind of triumph, by
all means uncork the champagne!

You simply have to do a better job of covering your tracks in future.
If you're sloppy, that's hardly my fault.

Ah, I see. The "centralized body" "looks into" "new" usages. And
somewhere along the line they discover a precise boundary between
cases of meaning change and cases incorrect usage. My goodness, that
truly is remarkable. It's very good to know that Spanish is unlike
every other natural language in this respect.

And why is that interesting? Common usage might be incorrect. Or the
dictionary might yield an inaccurate rendering of colloquial usage.

Well I sure am glad to see that everybody is following Obama's
suggestion and talking about racial issues 8-}

Now let's just admit the truth; we all harbor some degree of prejudice
- even the ultra-liberals who claim otherwise.

Now, back to radio; Cuba was coming in better this afternoon (11760)
than usual and had some nice Caribean/Spanish type music going before
they rudely interrupted it with commentary. Frankly, living in urban
RF-hell (I swear if I ever buy another house I am going to spend
evenings walking around with a sw radio first) I am glad for almost
any station that I can receive with a degree of clarity.

Looks like an FDM signal but AM modulated so
that the FDM is replicated as sidebands with a
carrier in the middle.
Runs of ~30 seconds with simpler tones in
between.

Oops. My bad. The frequency was actually 11.435 MHz.
It pretty well faded out after about an hour.
I'll be looking for it again. It was something a bit
different.
I've posted a waterfall image of it in alt.binaries.radio-control

Mike - The Usenet Improvement Project

? UseNet -versus- Google Groups ?
Circa 1980 - http://en.wikipedia.org/wiki/Usenet
Circa 2001 - http://en.wikipedia.org/wiki/Google_Groups
Also Note - Yahoo! Groups
Circa 1998 - http://en.wikipedia.org/wiki/Yahoo_Groups

Over Time there will be a Generational Shift of Internet
Users from UseNet to the Yahoo/Google Group types
of Web-Venues :
* The "Groups" are a Web-Users "Place-To-Go" with
their Internet Appliance (PC)
+ + + This Number is Growing Daily -because- The
Groups are Heavily Promoted -because- The Groups
Make Money for their Corporations.
* UseNet remains the Refuse of the Old-Time Internet

coast to coast is really boring now I think noory would rather be on TV. The weekend guys are also boring. xm 165 at 8pm central time zone on Saturdays they play old art bell stuff it's called some where in time. They played one of his older shows a while back from the early 90's and art was talking about all of his guns and the government would never get them from him it was so much different from his newer stuff. Rollye James also has a good show on xm she quit hosting coast to coast on the weekends she said it is a different show now.
The only reason I have xm is for those 2 shows
other than that xm sucks they play ad council energy hog commercials 10 time an hour it's so annoying.

* * * RANT * * * (OT) : Shining the Light on
Small "Universal" {Common} Household Hazardous Waste

When the US Federal Government -requires- that Each
Weekly Household Garbage pick-up also has an Orange
Plastic Bag with Black Stripes on it for Small "Universal"
{Common} Household Hazardous Waste : Batteries and CFLs.
http://en.wikipedia.org/wiki/Hazardous_waste#Universal_wastes

Then there will be meaningful Special Handling and
Recycling of these two most Common Household
Hazardous Waste Items in the Waste Stream.
http://www.learner.org/interactives/garbage/hazardous.html

To expect the average Citizen to separate-out their
Batteries and CFLs and then make an Appointment
and Special Trip to the Hazardous Waste Handling
Site is BULL SHIT and Just Plain Bad Public Policy.

Where these Weekly Curb-Side Bagging / Boxing of
Household Hazardous Waste has been implimented
for these two most common items Batteries and CFLs :
The Special Handling Recycle Rate goes from under
10% to better than 60% : That is a 500% Increase.
THAT IS GOOD PUBIC POLICY.

Yes, 3815 kHz and 0820 GMT when I was hearing him. You might not recognize his voice as he doesn't really sound quite like he does on C2C.

He's been known to be on 3807 as well some times.

He does use an automatic CW id'er which sends W6OBB, which is a good way to know he's there if you don't recognize his voice right off.

** U S A. George Jacobs tells me that KTBN will be closing down permanently at 0100 UT March 30. So DX it while you can on 15590 or 7505. We suspected that was going to happen, as another client of his, WRNO, gets those two frequencies for A-08. George says WRNO hopes to start testing their Katrina-damaged transmitter in early April, and programming in late April, but that`s only tentative. In turn, WBCQ gets former WRNO unused frequency 15420 from April 1, ex-17495 (Glenn Hauser, OK, DX LISTENING DIGEST)

(snip)

Bell has that great personality. He seemed to really enjoy his guests
and his audience, and he treated all with respect. Sometimes you could
almost see him wink to the audience as he chatted up one of his more
looney callers or guests, but he was always respectful and seemed to be
having fun. And he has that great radio voice.

I still listen to the program - on those occasions where I have a hard
time falling to sleep, I put on the headphones and tune it in. Then
sleep comes quickly.

I did note KTBN today on 7505 then switching to 15590 at 1500. EiBi says 15590 starts at 1400.

They make money by allowing uncontrolled Chinese spam. I think I'll start blocking everything that comes from there. Google's corporate motto used to be 'Do no Evil'. That ended with their entry into China.
